INDEPENDENT AUDITORS' REPORT

Board of Directors Ascension Parish Sales and Use Tax Authority Gonzales, Louisiana

We have audited the accompanying statement of fiduciary assets and liabilities of the Ascension Parish Sales and Use Tax Authority as of and for the year ended June 30, 2008, which comprise the Ascension Parish Sales and Use Tax Authority's basic financial statements as listed in the table of contents. The financial statements are the responsibility of the Ascension Parish Sales and Use Tax Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit,

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and with the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Ascension Parish Sales and Use Tax Authority as of June 30, 2008, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis information on pages 3 through 5 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion no it.

In accordance with Government Auditing Standards, we have also issued a report dated October 30, 2008, on our consideration of Ascension Parish Sales and Use Tax Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and important for assessing the results of our audit.

5. Defined Benefit Pension Plans and Postemployment

Substantially all employees of the Authority are members of Teachers Retirement Systems. These systems are cost-sharing, multiple-employer defined benefit pension plans administered by a board of trustees. Pertinent information relative to each plan follows:

Plan Description. The TRS consists of three membership plans: Regular Plan, Plan A, and Plan B. The TRS provides retirement benefits as well as disability and survivor benefits. Ten years of service credit is required to become vested for retirement benefits and five years to become vested for disability and survivor benefits. Benefits are established and amended by state statute. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for the TRS. That report may be obtained by writing to the Teachers' Retirement System of Louisiana, Post Office Box 94123, Baton Rouge, Louisiana 70804-9123, or by calling (225) 925-6446.

Funding Policy. Plan members are required to contribute 8.0 percent, 9.1 percent, and 8.0 percent of their annual covered salary for the Regular Plan, Plan A, and Plan B, respectively. The Authority is required to contribute at an actuarially determined rate. The current rate is 15.8 percent of annual covered payroll for all three membership plans. Member contributions and employer contributions for the TRS are established by state law and rates are established by the Public Retirements Systems' Actuarial Committee. The Authority's employer contribution for the TRS, as provided by state law, is funded by the State of Louisiana through annual appropriations, by deductions from local ad valorem taxes, and by remittances from the Authority.

The Authority's contributions to the TRS for the years ended June 30, 2008, 2007, and 2006, were \$59,257, \$60,179, and \$54,851, respectively, which equals to the required contributions for each year.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

Board of Directors
Ascension Parish Sales and Use Tax Authority
Gonzales, Louisiana

We have audited the financial statements of the Ascension Parish Sales and Use Tax Authority as of and for the year ended June 30, 2008, which collectively comprise the Ascension Parish Sales and Use Tax Authority's basic financial statements and have issued our report thereon dated October 30, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Ascension Parish Sales and Use Tax Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Ascension Parish Sales and Use Tax Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Ascension Parish Sales and Use Tax Authority's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Ascension Parish Sales and Use Tax Authority's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Ascension Parish Sales and Use Tax Authority's financial statement that is more than inconsequential will not be prevented or detected by the Ascension Parish Sales and Use Tax Authority's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Ascension Parish Sales and Use Tax Authority's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ascension Parish Sales and Use Tax Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended for the information of the Ascension Parish Sales and Use Tax Authority's Management, Parish Council, federal awarding agencies, and pass through entities, and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statue 24:513, this report is distributed by the Legislative Auditor as a public document.
