INTRODUCTION

The Spring Bayou Water Works District, Marksville, Louisiana was incorporated on October 9, 1990, under the provision of the Louisiana Revised Statutes 33:3814, by the Avoyelles Parish Police Jury. The District operates under a President-Board form of government, whose appointments are made by the Avoyelles Parish Police Jury. The members of the board receive \$15 per meeting attended, with the President receiving \$30 per meeting attended. The District is responsible for maintaining and operating a water system within the boundaries of the district.

GASB Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under the provisions of this Statement, the Spring Bayou Water Works District is considered a component unit of the Avoyelles Parish Police Jury. As a component unit, the accompanying financial statements may be included within the reporting entity of the primary government, either blended into those financial statements or separately reported as a discrete component unit.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES

A. FINANCIAL STATEMENTS

Government Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, provides that special-purpose governments engaged only in business-type activities should present only the financial statements required for the enterprise fund. For these governments, basic financial statements and required supplemental information (RSI) consist of:

1. Management’s discussion and analysis (MD&A)
2. Statement of net assets
3. Statement of revenues, expenses and changes in net assets
4. Statement of cash flows
5. Notes to the financial statements
6. RSI other than MD&A, if applicable

The Spring Bayou Water Works District is a special-purpose government engaged only in business-type activities.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Enterprise fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing related to cash flows.

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operation. The operating expenses of the Spring Bayou Water Works District include the costs of the services, administrative expenses, and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the department may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the District may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at cost.

D. RECEIVABLES

All receivables are generally shown net of an allowance for uncollectible accounts. These statements contain no provision for uncollectible accounts. The District is of the opinion that such an allowance would be immaterial to the financial statements taken as a whole.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES, CONTINUED

E. RESTRICTED ASSETS

Certain resources set aside for repayment of revenue bonds are classified as restricted assets on the balance sheet because their use is limited by the debt agreement.

F. CAPITAL ASSETS

Capital assets, which include land, the water system, buildings, and equipment are reported in the enterprise fund financial statements. All of the District's capital assets are capitalized at historical cost. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

	<u>Estimated Lives</u>
Infrastructure – water system	25 - 40 years
Buildings	25 years
Equipment	5 – 10 years

G. LONG-TERM OBLIGATIONS

Long-term debt such as revenue bonds payable are reported as liabilities in the statement of net assets.

H. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, disclosures, and revenues and expenses during the reporting period. Actual results could differ from these estimates.

The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.
