FINANCIAL INFORMATION SECTION

Independent Auditors' Report

Mr. Jim Firmin, Administrator
St. Mary Parish Housing Program
Morgan City, Louisiana

We have audited the accompanying financial statements of the governmental activities and the major fund of St. Mary Parish Housing Program, of the St. Mary Parish Council, as of September 30, 2006, and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of St. Mary Parish Housing Program's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements of St. Mary Parish Housing Program of the St. Mary Parish Council, are intended to present the financial position, and the changes in financial position of only that portion of the governmental activities, and the major fund, of the Council that is attributable to the transactions of the Program. They do not purport to, and do not, present fairly the financial position of the St. Mary Parish Council, as of September 30, 2006, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of St. Mary Parish Housing Program as of September 30, 2006, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Program has not presented Management's Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

In accordance with Government Auditing Standards, we have also issued our report dated March 23, 2007 on our consideration of St. Mary Parish Housing Program's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide our opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in conjunction with this report in assessing the results of our audit.

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the St. Mary Parish Housing Program of the St. Mary Parish Council's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for the purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements of the St. Mary Parish Housing Program. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

ST. MARY PARISH HOUSING PROGRAM

NOTES TO THE FINANCIAL STATEMENTS For the Year Ended September 30, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The St. Mary Parish Housing Program administers the Section 8 Housing Program. The Section 8 Housing Program covers all of St. Mary Parish, excluding Morgan City.

The Section 8 Housing Program provides rental assistance to help very low income families afford decent, safe, and sanitary rental housing.

The financial statements of the St. Mary Parish Housing Program have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

In June 1999, the GASB approved Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments (Statement). Significant changes required by the Statement include a Management's Discussion and Analysis (MD & A) section providing an analysis of the Program's overall financial position and results of operations, the preparation of the financial statements using full accrual accounting for all of the Program's activities (Government-wide Financial Statements), and the reporting of infrastructure assets. The major change under full accrual accounting includes reporting fixed assets (net of accumulated depreciation) and long-term liabilities in the Government-wide Financial Statements. However, the Program does not own any significant fixed assets nor infrastructure assets. In addition, the Program does not have any long-term liabilities. Because of this, the only significant section of the new statement applicable to the Program is MD & A.

The Program has not presented an MD & A that GASB has determined is necessary to supplement, although not required to be part of, the basic financial statements.

A. Reporting Entity

In evaluating how to define the governmental unit, for financial reporting purposes, consideration has been given to the following criteria as set forth in GAAP:

- a. Financial benefit or burden
- b. Appointment of a voting majority
- c. Imposition of will
- d. Fiscally dependent

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Based upon the above criteria, the Program is an integral part of the St. Mary Parish Council (Council), the primary government.

Governments may issue financial statements that present only a portion of their operations. These financial statements include only the operations of the Program, and as such do not intend to and do not report on the Council's operations as a whole in accordance with GAAP.

B. Basic Financial Statements - Government-wide Financial Statements

The Government-wide financial statements include the Statement of Net Assets and the Statement of Activities which report all activities of the Program as a whole. The government-wide presentation focuses primarily on the sustainability of the Program as an entity and the change in the Program's net assets resulting from the current year's activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues.

C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Program are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types". The following is a description of the fund utilized by the District.

Governmental Fund

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources that are earmarked for expenditures for specific purposes.

D. Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Government-wide Statements

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities (whether current or noncurrent) are included on the statement of net assets and the statement of activities present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Fund Financial Statements

Governmental fund financial statements are accounted for using a current financial resources measurement focus and the modified basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Federal grants are recorded when the Program is entitled to the funds. Expenditures are recorded when the related fund liability is incurred.

Because there are no significant differences between either the Program's Government-wide Statement of Net Assets and the Fund Financial Statement Balance Sheet or between the Government-wide Statement of Activities and the Fund Statement of Revenues, Expenditures, and Changes in Fund Balance, these two statements are combined for financial reporting purposes.

E. Budgets

The program did not adopt a budget for 2006, therefore no comparison of actual to budget is presented.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. Cash and Cash Equivalents

For financial statement purposes, cash and cash equivalents include demand deposits.

Cash and cash equivalents are stated at cost, which approximates market.

G. Equity Classifications

Equity is classified as net assets and displayed in up to three components if applicable – invested in capital assets, net of related debt; restricted; and unrestricted. These classifications are defined as follows:

- Invested in capital assets, net of related debt – This component of net assets consists of capital assets net of accumulated depreciation and reduced by the outstanding debt that is attributable to the acquisition, construction, or improvement of these assets.
- Restricted – This component of net assets consists of constraints placed on net asset use through external constraints imposed by creditors, grantors, contributors, or laws or regulations.
- Unrestricted net assets – The component of net asset consist of net assets that do not meet definition of “restricted” or “invested in capital assets, net of related debt.”

At year end all Program net assets are restricted by grant requirements.

H. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - PRIOR PERIOD ADJUSTMENT

The Program improperly recorded certain receivables from HUD in a prior year. This error was discovered and corrected in the current year by reducing the amount due from HUD and net assets by \$8,873.

This adjustment does not effect the amount of revenues or expenses for 2006.

NOTE 3 - CASH AND CASH EQUIVALENTS

At year end, the carrying amount of the Program's cash and cash equivalents was \$52,518 and the bank balance was \$56,679. All of the bank balance was covered by federal depository insurance.

NOTE 4 - CONTINGENCIES

Amounts received from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed expenditures may constitute a liability of the Program. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time; although, management of the Program believes disallowances, if any, to be immaterial.

NOTE 5 - CONCENTRATIONS

The Program receives ninety-nine percent of its revenue from a federal grant.

NOTE 6 - RISK MANAGEMENT

The Program is exposed to various risks of loss related to torts and errors or omissions. The Corporation contracted to administer the program carries insurance to substantially cover all risks of the Program.

REPORTS ON INTERNAL ACCOUNTING CONTROL OVER
FINANCIAL REPORTING, COMPLIANCE AND OTHER MATTERS,
AND MAJOR FEDERAL PROGRAMS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Mr. Jim Firmin
St. Mary Parish Housing Program
Morgan City, Louisiana

We have audited the financial statements of governmental activities and the major fund of St. Mary Parish Housing Program of the St. Mary Parish Council, as of and for the year ended September 30, 2006 which collectively comprise the St. Mary Parish Housing Program of the St. Mary Parish Council's basic financial statements, and have issued our report thereon dated March 23, 2007, which contains two additional paragraphs. One paragraph notes that the financial statements include only the operations of the Program. An additional paragraph states that management elected to omit Management's Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of the basic financial statements. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the St. Mary Parish Housing Program's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting or its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether St. Mary Parish Housing Program's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under Government Auditing Standards which is described in the accompanying schedule of findings and questioned costs as item 2006-1.

This report is intended solely for the use of the management of the Program, the finance committee of the St. Mary Parish Council, federal awarding agencies, and the Legislative Auditor of the State of Louisiana and is not intended to be used by anyone other than these specified parties. However under Louisiana Revised Statute 24:513, this report is a matter of public record and may be distributed by the Legislative Auditor.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH
MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

Mr. Jim Firmin
St. Mary Parish Housing Program
Morgan City, Louisiana

Compliance

We have audited the compliance of the St. Mary Parish Housing Program with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to its major federal program for the year ended September 30, 2006. The St. Mary Parish Housing Program's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the St. Mary Parish Housing Program's management. Our responsibility is to express an opinion on the St. Mary Parish Housing Program's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about St. Mary Parish Housing Program's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on St. Mary Parish Housing Program's compliance with those requirements.

In our opinion, the St. Mary Parish Housing Program complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended September 30, 2006.

Internal Control Over Compliance

The management of St. Mary Parish Housing Program is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the St. Mary Parish Housing Program's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving internal control over compliance and its operations that we consider to be material weaknesses.

This report is intended solely for the use of the management of the Program, Federal awarding agencies, the Legislative Auditor of the State of Louisiana and the Finance Committee of the St. Mary Parish Council, and is not intended to be and should not be used by anyone other than these specified parties. However under Louisiana Revised Statute 24:513, this report is considered a public record and may be distributed by the Legislative Auditor.
