Office of Public Health

Department of Health and Hospitals

DARYL G. PURPERA,
CPA, CFE

Audit Control # 80140106
Financial Audit Services • December 2014

Why We Conducted This Audit

We performed certain procedures at the Office of Public Health (OPH) as part of the Single Audit of the State of Louisiana, and to evaluate its accountability over public funds for the period July 1, 2013 through June 30, 2014.

What We Found

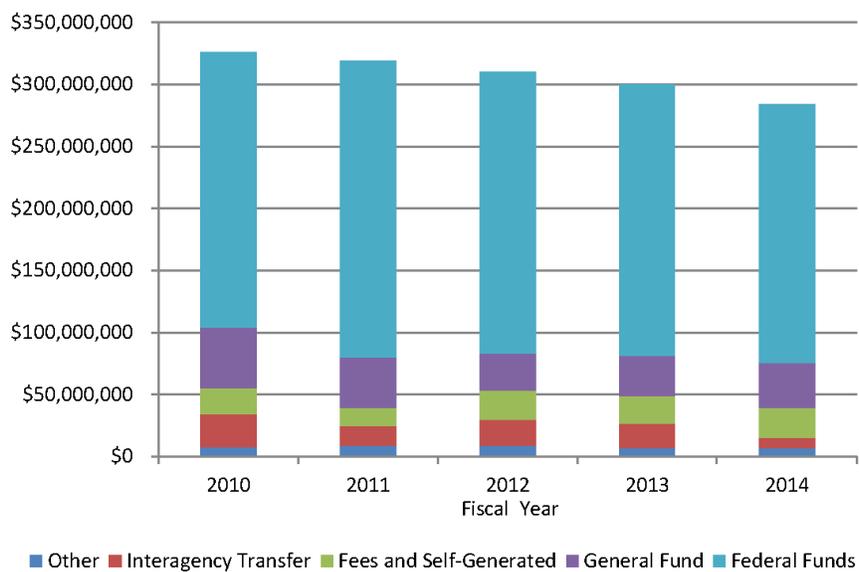

We tested controls over compliance relating to OPH’s Commodity Supplemental Food Program; Immunization Cooperative Agreements Program; Special Supplemental Nutrition Program for Women, Infants, and Children (WIC); and HIV Care Formula Grants (Ryan White HIV/AIDS Program Part B), as required by the Office of Management and Budget (OMB) Circular A-133. In addition, we performed procedures on OPH’s Schedule of Prior Audit Findings (Schedule 8-3).

Based on the results of those procedures, we did not report any internal control deficiencies or noncompliance with program requirements required by OMB Circular A-133 and OPH’s Schedule 8-3, as adjusted, is materially correct.

In analyzing the revenue of OPH over the past five years, total revenue has declined primarily because of budget cuts in state General Fund monies and the expiration of most American Recovery and Investments Act federal funding after 2012.
