INDEPENDENT AUDITORS' REPORT

Honorable Wilbert Washington, Mayor
and Members of the Board of Aldermen
Town of Clayton, Louisiana

We have audited the accompanying financial statements of the governmental activities, the business type activities, and each major fund of the Town of Clayton Louisiana as of and for the year ended June 30, 2005, which collectively comprise the Town's financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the Louisiana Governmental Audit Guide. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the business type activities for the primary government of the Town, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 8, 2006 on our consideration of the Town's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Honorable Wilbert Washington, Mayor
and Members of the Board of Aldermen
Page Two

The management's discussion and analysis and budgetary comparison information on Page 3 through 7 and Pages 32 through 41 are not a required part of the financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

TOWN OF CLAYTON – CLAYTON, LOUISIANA
MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2005

As management of the Town of Clayton, Louisiana, we offer readers of the Town of Clayton, Louisiana’s financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2005 and 2004. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit.

FINANCIAL HIGHLIGHTS

The financial statements included in this report provide insight into the financial status for the year. Based upon the operations of 2005 and 2004, the Town's net assets decreased in 2005, which resulted in ending net assets of \$2,327,347 and increased in 2004 and resulted in ending net assets of \$2,423,051 at June 30, 2004.

1. The beginning cash balance at July 1, 2003 was \$168,501. The ending cash balance was \$171,273 at June 30, 2004 and \$163,521 at June 30, 2005.
2. The governmental activities had \$105,124 in revenues in 2005 and \$582,405 in 2004. The revenues consisted primarily of grants, sales taxes, property taxes, occupational licenses, franchise taxes and fines. There were expenditures of \$135,122 in 2005 and \$598,840 in 2004..

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town of Clayton’s financial statements. The Town’s financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town’s finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Town’s assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the town is improving or deteriorating.

The statement of activities presents information showing how the Town’s net assets changed during the most recent fiscal year.

The government-wide financial statements outline functions of the Town that are principally supported by property taxes and intergovernmental revenues (governmental activities). Fixed assets and related debt is also supported by taxes and intergovernmental revenues.

The government-wide financial statements can be found on pages 9-10 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The basic governmental fund financial statements can be found on pages 12-18 of this report.

TOWN OF CLAYTON – CLAYTON, LOUISIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2005

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19-28 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities by \$2,327,347 as of June 30, 2005.

Net Assets for the period ending June 30, 2005 and 2004

The accompanying notes are an integral part of these statements.

TOWN OF CLAYTON, LOUISIANA

Notes to Financial Statements
As of and for the year ended June 30, 2005

INTRODUCTION

The Town of Clayton is a municipal corporation governed by an elected mayor.

1. The Town of Clayton, Louisiana was incorporated under provisions of the Lawrason Act as a Town in 1962.
2. The purpose of a municipality is to provide utility services, public safety (police and fire), streets, sanitation and general administrative services.
3. The Board of Aldermen consists of five elected members that are paid \$150 per month.
4. The Town of Clayton is located in the northeastern portion of Concordia Parish, Louisiana. Concordia Parish is located in northeastern Louisiana.
5. The population of Clayton is approximately 835.
6. The Town of Clayton has three full time employees and one part time employee.
7. The Town of Ferriday has approximately 300 utility customers.

GASB Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the municipality is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the municipality may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. *Government-Wide and Fund Financial Statements*

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of Interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds.

TOWN OF CLAYTON, LOUISIANA

Notes to Financial Statements
As of and for the year ended June 30, 2005

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

B. *Measurement Focus, Basis of Accounting and Financial Statement Presentation*

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The town reports the following major governmental funds:

The General Fund is the municipality's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Capital Projects Fund accounts for construction projects funded by grants.

The Indebtedness Fund accounts for long-term debt.

The town reports the following major proprietary fund:

The Utility Fund is used to account for the provision of gas and water utilities, as well as sewer services to residents of the Town. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service and billing and collection.

TOWN OF CLAYTON, LOUISIANA

Notes to Financial Statements
As of and for the year ended June 30, 2005

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of Interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lie of taxes and other charges between the government's enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, service or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal on-going operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the town's policy to use restricted resources first, then unrestricted resources as they are needed.

C. *Deposits and Investments*

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of six months or less from the date of acquisition. State law and the Town's investment policy allow the municipality to invest in collateralized certificates of deposits, government-backed securities, commercial paper, the state sponsored investment pool and mutual funds consisting solely of government-backed securities.

D. *Receivables and Payables*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

TOWN OF CLAYTON, LOUISIANA

Notes to Financial Statements
As of and for the year ended June 30, 2005

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

All trade and property tax receivables are shown net of an allowance for uncollectible accounts. Uncollectible amounts due for ad valorem taxes and customer's utility receivables are recognized through the establishment of an allowance account at the time information becomes available, which would indicate the uncollectibility of the particular receivable.

The Town annually levies ad valorem taxes in accordance with state statute for the fiscal year ended June 30. Tax bills are prepared and delivered in October with payment due from the date of receipt to the last day of February. Because of the due dates noted previously, ad valorem taxes are not considered to be available resources of the fiscal year to which they apply and are, therefore, not accrued at the end of the fiscal year.

The Town bills and collects its own property taxes using the assessed values determined by the Tax Assessor of Concordia Parish.

For the year ended June 30, 2005, taxes of 3.59 mills were levied on property with assessed valuations totaling \$11,288,390, after abatements and exemptions and were dedicated as follows:

General corporate purposes	3.59 mills
Total taxes levied were	\$ 4,625

E. Inventories

For both governmental and proprietary funds, purchase of various operating supplies are regarded as expenditures or expenses at the time purchased, and inventories of such supplies (if any) are not recorded as assets at the close of the fiscal year. For the year ending June 30, 2005, these amounts were considered to be immaterial.

F. Restricted Assets – Utility Fund

Restricted assets represent resources that must be expended in specific manner. Restrictions of this nature are imposed by various contractual obligations including grant agreements and bond covenants. In situations where it is permissible to spend restricted resources, the Town typically depletes the available restricted resources before consuming unrestricted resources. Restricted assets were applicable to the following at June 30, 2005.

Sinking Fund	\$ 12,921
Reserve Fund	7,647
Depreciation Fund	13,380
Customer Deposits	24,456
	<u>\$ 58,404</u>

TOWN OF CLAYTON, LOUISIANA

Notes to Financial Statements
As of and for the year ended June 30, 2005

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

G. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The municipality maintains a threshold level of \$500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Governmental activities:	
Land improvements	30 years
Buildings	40 years
Vehicles	5 – 15 years
Machinery and equipment	5 – 15 year
Business-type activities/Enterprise Fund:	
Buildings	25 years
Infrastructure	20 – 50 years
Machinery and equipment	10 – 20 years
Vehicles	5 years

H. Compensated Absences

Each full-time employee is credited with one day of vacation leave for each month worked. The employee's vacation leave will begin to accumulate upon finishing a six-month probation period. Employees are allowed five days of sick leave up until his or her first anniversary date arrives. After his or her first anniversary, the employee shall earn sick leave at the rate of ten days per anniversary date. In accordance with GASB Statement No. 16, the Town had no accrued compensated absences as of June 30, 2005.

TOWN OF CLAYTON, LOUISIANA

Notes to Financial Statements
As of and for the year ended June 30, 2005

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

I. *Long-Term Obligations*

In the government-wide financial statements, and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. *Fund Equity*

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

K. *Estimates*

The preparation of financial statements inconformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 – CASH AND CASH EQUIVALENTS

The following is a summary of cash and cash equivalents (book balances) at June 30, 2005:

Demand deposits	\$ 87,822
Time deposits	<u>75,699</u>
Total	<u>\$ 163,521</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

TOWN OF CLAYTON, LOUISIANA

Notes to Financial Statements
As of and for the year ended June 30, 2005

NOTE 2 – CASH AND CASH EQUIVALENTS - continued

At June 30, 2005, the primary government has \$157,949 in deposits (collected bank balances). These deposits are secured from risk by \$157,949 of federal deposit insurance.

NOTE 3 – RECEIVABLES

The following is a summary of receivables for June 2005:

Class of Receivables	Governmental Activities	Business Type Activities
Notes - 3% payable at \$247/month (Revitalization loan)	\$ 8,852	\$ -
Utilities	-	35,823
Less allowance for bad debts	-	(10,000)
Total	<u>\$ 8,852</u>	<u>\$ 25,823</u>

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Wilbert Washington, Mayor
and Members of the Board of Aldermen
Town of Clayton, Louisiana

We have audited the basic financial statements of Town of Clayton, Louisiana as of and for the year ended June 30, 2004, and have issued our report thereon dated February 8, 2006. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Town of Clayton, Louisiana's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an object of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance that is required to be reported under *Government Auditing Standards*. This finding is included in the schedule of findings and questioned costs as finding 2005-4.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Clayton, Louisiana's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses.

Honorable Wilbert Washington, Mayor
Town of Clayton, Louisiana
Page Two

However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the Town of Clayton, Louisiana's ability to record, process, summarize and report financial data consistent with the assertions of management in the general purpose financial statements. A reportable condition is described in the accompanying schedule of findings and questioned costs are items 2005-1, 2005-2 and 2005-3.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions, and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable conditions described above are not material weaknesses.

This report is intended for the information and use of management of the district and the Legislative Auditor of the State of Louisiana. However, this report is a matter of public record and its distribution is not limited.

Ferriday, Louisiana
February 8, 2006

Switzer, Hopkins & Mange

TOWN OF CLAYTON, LOUISIANA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2005

Summary of Audit Results

1. Auditor's Report

An unqualified opinion has been issued on the Town of Clayton, Louisiana's general purpose financial statements as of and for the year ended June 30, 2005.

2. Reportable Conditions – Financial Reporting

Three reportable conditions in internal control over financial reporting were reported. These conditions are reported as 2005-1, 2005-2 and 2005-3.

3. Reportable Conditions – Compliance With Laws and Regulations

There was one reportable condition of noncompliance with laws and regulations. This condition is reported as 2005-4.

Findings – Financial Statement Audit

Reportable Conditions

2005-1 Segregation of Duties

We noted that the Town of Clayton does not have adequate segregation of duties in the accounting department. Two people are responsible for collections, posting accounts receivable records, posting the cash receipts journals, posting the cash disbursement journals, posting the general ledgers, preparing deposits, opening bank statements and preparing bank reconciliation's as well as writing and signing checks. In order to increase internal controls, these functions should be separated.

We recommend that the Town attempt to separate the accounting duties in order to strength internal control.

The Town has indicated that it has no plans to hire additional employees to segregate duties. The Town's response is included in the attached letter.

2005-2 Gas Losses

We noted that the Town experienced 30% gas losses during the year. Gas losses were as follows:

Gas purchased	10,459 MCF
Gas Sales	<u>7,302 MCF</u>
Unaccounte for gas	<u>3,157 MCF</u>
% Gas Losses	30%

We recommend that the Town investigate the losses and determine the cause of this problem. The problem apparently is a broken relief valve. Also the gas line is designed for 21 pounds of pressure and is running at 42 pounds pressure.

The Town's response is included in the attached letter.

TOWN OF CLAYTON, LOUISIANA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2005

Findings – Financial Statement Audit – continued

Reportable Conditions

2005-3 Utility Fund Cut-Off Policy

We noted that the town has 26 out of 337 utility customers who are more than 60 days past due on their utility bill payments. These customers would have their utilities cut off if the Town's cut-off policy was followed.

We recommend the following that the utility cut-off policy be enforced.

See response attached.

2005-4 Late Filing of Audit Report

Louisiana Revised Statute 24:513 requires that this audit be completed by December 31, 2005. It was completed in February 2006. This is a violation of State law.

We recommend that in future years the audit report be completed within the time allowed by State law.

See response attached.

TOWN OF CLAYTON, LOUISIANA

SUMMARY OF SCHEDULE OF PRIOR AUDIT FINDINGS
JUNE 30, 2004

Findings – Financial Statement Audit

Reportable Conditions

2004-1 Segregation of Duties

We noted the Town of Clayton does not have adequate segregation of duties in the accounting department. Two people are responsible for collections, posting accounts receivable records, posting the cash receipts journals, posting the cash disbursement journals, posting the general ledgers, preparing deposits, opening bank statements and preparing bank reconciliation's as well as writing and signing checks. In order to increase internal controls, these functions should be separated.

We recommend the Town attempt to separate the accounting duties in order to strength internal control.

This finding still applies and in included in the current audit for the year ending June 30, 2005 as finding 2005-1.

2004-2 Gas Losses

We noted that the Town experienced 21% gas losses during the year. Gas losses were as follows:

Gas purchased	11,191 MCF
Gas Sales	<u>8,811 MCF</u>
Unaccountef for gas	<u>2,380 MCF</u>
% Gas Losses	21%

We recommend that the Town investigate the losses and determine the cause of this problem. The problem apparently is leaks, broken meters or theft of gas.

This finding still applies and in included in the current audit for the year ending June 30, 2005 as finding 2005-2.

2004-3 Utility Fund Cut-Off Policy

We noted that the town has 47 out of 324 utility customers who are more than 60 days past due on their utility bill payments. Included in the past due customers is a Town employee responsible for enforcing the cut-off policy. We also noted that an elected official was included in the accounts receivable bad debts that were written off. This official subsequently paid the utility bill.

We recommend the following that the utility cut-off policy be enforced.

This find still applied in the current audit for the year ending June 30, 2005 as finding 2005-3.

TOWN OF CLAYTON, LOUISIANA
SUMMARY OF SCHEDULE OF PRIOR AUDIT FINDINGS
JUNE 30, 2004

2004-4 Late Filing of Audit Report

Louisiana Revised Statute 24:513 requires that this audit be completed by December 31, 2004. It was completed in February 2006. This is a violation of State law.

We recommend that in future years the audit report be completed within the time allowed by State law.

This finding still applies in the current audit for the year ending June 30, 2005 as finding 2005-4.

RESPONSE

**TOWN OF CLAYTON
P. O. BOX 277

February 15, 2006

Mr. H. Myles Hopkins, CPA
Switzer, Hopkins, & Mange
P. O. Box 478
Ferriday, LA 71334

Dear Mr. Hopkins:

In regard to the audit report findings for the period ended June 30, 2005, I have the following response:

Finding 2005-1 Segregation of Duties

We do not have enough accounting personnel to segregate duties so that we have perfect internal control. We have no plans to hire additional people in the Town Hall and we will probably have this problem.

Finding 2005-2 Gas Losses

Gas Losses are compiled on a monthly basis and we will investigate this problem during the year closely.

Finding 2005-3 Utility Cut-Off Policy

We will investigate this problem and do what we have to do to fix the problem.

Finding 2005-4 Late Filing of Audit Report

The report should not be late next year.

Please let me know if you have any questions.

Sincerely,

Wilbert Washington, Mayor
Town of Clayton, Louisiana
