ACCOUNTANT'S REVIEW REPORT

To Opelousas City Marshal
Opelousas, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and each major fund, of the Opelousas City Marshal, as of and for the year ended December 31, 2008, which collectively comprise the Opelousas City Marshal's basic financial statements as listed in the table of contents, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All included in these financial statements are the representation of the management of Opelousas City Marshal.

A review consists principally of inquiries of the Marshal's personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report, dated June 29, 2009, on the results of our agreed-upon procedures.

The budgetary comparison information as noted in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. The other supplementary information as listed in the table of contents on pages 17-23 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, but was compiled from information that is the representation of management, without audit or review. Accordingly, we do not express an opinion or any other form of assurance on the supplementary information.

Management has not presented the management's discussion and analysis information that the Governmental Accounting Standards Board has determined is required to supplement, although not required to be a part of, the basic financial statements.

OPELOUSAS CITY MARSHAL
OPELOUSAS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2008

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of certain significant accounting policies and practices.

A. The Reporting Entity

As the governing authority for the City of Opelousas, for reporting purposes, the City of Opelousas, Louisiana is the financial reporting entity. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature or significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the primary government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the primary government to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government.
2. Organizations for which the primary government does not appoint a voting majority but are fiscally dependent on the primary government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the criteria described above, the Opelousas City Marshal is a primary government due to the following:

1. The Marshal is an independently elected official.
2. The Marshal is fiscally independent of the City of Opelousas.
3. The Marshal is legally separate from the City of Opelousas.

The accompanying basic financial statements present information only on the funds maintained by the City Marshal and do not present information on the City of Opelousas, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation

The accompanying financial statements of the Opelousas City Marshal have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles.

Management has elected not to implement the new financial reporting requirements of GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles.

C. Fund Accounting

The City Marshal uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The following fund type is used by the City Marshal:

General Fund. The General Fund is used to account for resources traditionally associated with government which are not required legally to be accounted for in another fund.

D. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The governmental fund is maintained on a modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The following practices are used in recording revenues and expenditures:

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

Revenues

Fines and reimbursements are recorded when they become susceptible to accrual. Miscellaneous revenues are recorded when received.

Expenditures

Expenditures are recognized under the modified accrual basis of accounting. Expenditures are recorded when the related fund liability is incurred.

Expenditures for insurance and similar services, which extend over more than one accounting period, are accounted for as expenditures in the period of acquisition.

Purchases of operating supplies are regarded as expenditures at the time purchased and inventories of such supplies (if any) are not recorded as assets at the close of year-end unless significant.

The City Marshal does not employ the encumbrance system of accounting.

E. CAPITAL ASSETS

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Equipment	10-20 years
Autos	10-20 years

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Construction period interest is capitalized if material amounts or interest resulting from borrowings in the course of the construction of fixed assets is incurred. No interest was capitalized for the year ended December 31, 2008.

F. Budget

The City Marshal adopts a budget at the beginning of each year on a basis consistent with generally accepted accounting principles (GAAP). If necessary, the budget is amended.

G. Investments and Cash

Louisiana statutes authorize the City Marshal to invest in United States bonds, treasury notes or certificates, time certificates of deposit in state and national banks, or any other federally insured investment.

H. Annual Sick Leave

All annual leave accumulated in 2008 was converted to sick leave on December 31, 2008. Sick leave is paid upon retirement or death, up to a maximum of 240 hours at a rate computed by taking the current monthly salary provided by the Opelousas City Marshal, and dividing that amount by 160 hours. Accrued compensated absences are not material at December 31, 2008 and thus are not recorded in these financial statements.

I. Accounts Receivable

The accounts receivable account represents fines receivable, salary reimbursement, juvenile mileage, subpoenas receivable, restitution receivable and bond forfeitures receivable.

The fines receivable amount represents fines collected by the Opelousas City Court for the prior year but not remitted to the City Marshal until the current year.

The salary reimbursement receivable represents the amount the City Marshal is reimbursed each month for salaries. The reimbursement is usually received during the month the expense is incurred.

The juvenile mileage receivables are reimbursements by the Opelousas City Court for costs incurred by the City Marshal's employees. Each month a mileage recap is sent to Opelousas City Court for the reimbursement which is made in the following month.

The subpoena receivable represents the amount collected by the Opelousas City Court for the prior year but not remitted to the City Marshal until the current year.

The restitution receivable represents reimbursements by an individual for costs incurred by the City Marshal's office for transfer of a suspect.

The bond forfeiture receivable represents amounts collected by the Opelousas City Court, mainly from bonding agencies, when defendants fail to appear in court.

NOTE (2) - CASH AND CERTIFICATES OF DEPOSIT

Cash consists of 3 demand deposit accounts. At year-end, the carrying amount of the City Marshal's cash accounts was \$98,576. The bank balance of cash was \$111,670. The cash was covered by federal depository insurance.

The carrying amount and the bank balance of certificates of deposit at year-end were \$57,124. The bank balance was covered by federal depository insurance.
