FINANCIAL SECTION
INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the
Firemen's Pension and Relief Fund,
City of Houma, Louisiana.

We have audited the accompanying general-purpose financial statements of the Firemen's Pension and Relief Fund (the Pension Fund), a component unit of the Terrebonne Parish Consolidated Government (the Parish), as of and for the year ended December 31, 2001, as listed in the table of contents. These general-purpose financial statements are the responsibility of the Pension Fund's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Firemen’s Pension and Relief Fund as of December 31, 2001, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States of America.
In accordance with Government Auditing Standards, we have also issued our report dated February 18, 2002 on our consideration of the Firemen’s Pension and Relief Fund's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Bourgeois Bennett, LLC.

NOTES TO FINANCIAL STATEMENTS

Firemen's Pension and Relief Fund

December 31, 2001

Note 1 - PLAN DESCRIPTION AND CONTRIBUTION INFORMATION

The following brief description of the City of Houma Firemen's Pension and Relief Fund (the Pension Fund) is provided for general information purposes only. Participants should refer to the applicable state statutes for more complete information.

a) Plan History

The Pension Fund was established for members of the City of Houma Fire Department in 1973 under the provisions of Act 139 of the Louisiana Legislature. Effective January 1, 1980, new firemen of the City of Houma are covered under the Firefighter’s Retirement System (FRS) of the State of Louisiana. The Pension Fund covers firemen hired prior to January 1, 1980. On March 26, 1996, the Pension Fund entered into a merger agreement with the Firefighter’s Retirement System of the State of Louisiana. The merger was effective July 1, 1995. The Pension Fund has been closed to new participants since January 1, 1980.

b) General

The Pension Fund (a defined benefit pension plan) is a single-employer Public Employee Retirement System (PERS) administered by a Board of Trustees (the Board). The Board of Trustees shall be composed of seven (7) members, consisting of the president of the Terrebonne Parish Consolidated Government, or his appointee, who shall be chairman of the board, a representative of the parish accounting department, a representative of the parish council to be appointed by said council, and four active members of the department, who shall not be above the rank of district chief when elected or reelected and who shall be elected by the active fire department personnel by election.

c) Plan Membership

At December 31, 2001, employee membership consisted of:

<table>
<thead>
<tr>
<th>Category</th>
<th>Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Retirees and beneficiaries currently receiving benefits</td>
<td>17</td>
</tr>
<tr>
<td>Current active members</td>
<td>4</td>
</tr>
<tr>
<td><strong>Total employee members</strong></td>
<td><strong>21</strong></td>
</tr>
</tbody>
</table>
Note 1 - PLAN DESCRIPTION AND CONTRIBUTION INFORMATION (Continued)

d) Eligibility Requirements

Regular retirement - The Firefighter’s Retirement System shall be obligated to pay the retirement benefit of the active members hired prior to January 1, 1980.

DROP participation - In lieu of terminating employment and accepting a service retirement allowance, members may elect to participate in the deferred retirement option plan (DROP) and defer receipt of benefits under this fund. The maximum period that any employee can participate in DROP and defer receipt of benefits is two years and the member can only exercise this option one time. On the effective date of the employees’ participation in the DROP, the employee and employer cease contributing to this fund and the employee’s benefit amount and service time shall be frozen. At the end of the period of participation in the DROP plan, the employee must choose either to terminate or continue employment.

The Parish shall be responsible for payment of DROP account balances accrued in the Pension Fund and any balances accrued by members merged into the Firefighters’ Retirement System while participating in the DROP. Merged active members who are former DROP participants will have their benefit computed at the Firefighters’ Retirement System benefit structure based upon the post-DROP accruals. The Pre-DROP benefits (including the 50% survivor benefit) will be frozen and not recomputed by the Firefighters’ Retirement System.

At December 31, 2001, one current active member was participating in DROP.

e) Plan Benefits

Pension Benefits - Effective August 1, 1995, members retiring after twenty years will receive 66 2/3% of the greater of (a) the member’s highest consecutive thirty-six months of compensation, or (b) the total monthly compensation of someone in the position held by the member at the time of retirement. An additional 3% is due for each year of service in excess of twenty years, up to a total benefit of 96 2/3% of such compensation.

At age fifty, the Firefighters’ Retirement System assumes the benefits according to the State’s standards. However, as part of the agreement of the merger, the firemen in the City of Houma Pension Fund could not lose any benefits by agreeing to merge with the State. Therefore, the City of Houma continues to pay the difference between the amount the city previously paid in benefits and the amount the State pays now.
Note 1 - PLAN DESCRIPTION AND CONTRIBUTION INFORMATION (Continued)

e) Plan Benefits (Continued)

Death and Disability Benefits - These benefits are assumed by FRS and the difference is assumed by the City of Houma.

f) Employer Contributions

Funding Policy - The Parish contributions are established by an actuary in the valuation report for the City of Houma Firemen's Pension and Relief Fund. The Aggregate Actuarial Cost Method was used and the actuarial accrued liability is equal to the actuarial value of assets, therefore there is no unfunded actuarial accrued liability. It was determined that there was an unfunded present value of contingent benefits in excess of assets in the amount of $269,749 based on the December 31, 2000 actuarial valuation. Administrative costs are financed through investment earnings.

Annual Pension Cost - The annual required contribution for the current year was determined to range from $56,503 to $60,458 as part of the December 31, 2000 actuarial valuation using the Aggregate Actuarial Cost Method.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Pension Fund conform to accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies:

a) Reporting Entity

The Pension Fund is a component unit of the Parish and, as such, these financial statements will be included in the comprehensive annual financial report (CAFR) of the Parish for the year ended December 31, 2001.

The Pension Fund has reviewed all of its activities and determined that there are no potential component units which should be included in its financial statements.
b) Fund Accounting

The accounting system is organized and operated on a fund basis whereby a separate self-balancing set of accounts is maintained for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The accounts of the Pension Fund are organized on the basis of a Trust Fund. Trust Funds are used to account for assets held in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

c) Basis of Accounting

Trust Funds are accounted for using the accrual method of accounting. Revenues are recognized when they are earned and expenses are recognized when they are incurred.

d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

e) Method Used to Value Investments

Investments are reported at fair value except for the Louisiana Asset Management Pool (LAMP). Short-term investments are reported at market value when published prices are available, or at cost, which approximates fair value. Investments during the year consisted of Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Notes, Certificates of deposit and LAMP. LAMP is an external pool which is operated in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows SEC-registered mutual funds to use amortized cost rather than market value to report net assets to compute share prices if certain conditions are met.
Note 3 - DEPOSITS AND INVESTMENTS

Bank Deposits:

State law requires deposits (cash and certificates of deposit) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivision are allowed as security for deposits. Obligations furnished as security must be held by the political subdivisions, or with an unaffiliated bank, or with a trust company for the account of the political subdivision.

Cash and deposits are categorized into three categories of credit risk.

Category 1 includes deposits covered by federal depository insurance or by collateral held by the Pension Fund or its agent in the Pension Fund’s name.

Category 2 includes deposits covered by collateral held by the pledging financial institution’s trust department or its agent in the Pension Fund’s name.

Category 3 includes deposits covered by collateral held by the pledging financial institution or its trust department or agent but not in the Pension Fund’s name and deposits which are uninsured or uncollateralized.

The year end bank balance of deposits are as follows:

<table>
<thead>
<tr>
<th>Bank Balances</th>
<th>Reported</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Risk Category</td>
<td>Amount</td>
<td></td>
</tr>
<tr>
<td>1</td>
<td>$100,000</td>

</tr>
<tr>
<td>2</td>
<td></td>
<td>$416,677</td>
</tr>
<tr>
<td>3</td>
<td></td>
<td>$16,379</td>
</tr>
</tbody>
</table>

Cash

At December 31, 2001, cash in excess of the FDIC insurance were collateralized by securities held by an unaffiliated bank for the account of the deposer. The Governmental Accounting Standards Board (GASB), which promulgates the standards for accounting and financial reporting for state and local governments, considers these securities uncollateralized. Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the deposer that the fiscal agent has failed to pay deposited funds upon demand.
Note 3 - DEPOSITS AND INVESTMENTS (Continued)

Investments:

According to Louisiana Revised Statute 11:3228, the Board of Trustees may at any time, after considering the probable current demands upon such fund, determine what portion of said fund may be safely withdrawn from the current cash account for investment for revenue purposes, and having so determined, invest the same in the manner hereinafter authorized, and all proceedings of the Board of Trustees relating thereto shall be entered upon its records. Investment shall be made with exercise of that judgment and care under circumstances then prevailing which men of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital, as well as the probable income to be derived. In no case shall more than twenty percent of the total investments of the system assets consist of any stock, including common or preferred, or corporate shares of any kind. All income from such investments shall be and become a part of said Pension Fund. All such securities or instruments of investment shall be deposited with the Secretary/Treasurer of the Board of Trustees and the receipt therefore filed in the record books.

The Pension Fund’s investments are categorized to give an indication of the level of risk assumed by the entity at year end.

Category 1 includes investments that are insured or registered or for which the securities are held by the Pension Fund or its agent in the Pension Fund’s name.

Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty’s trust department or agent in the Pension Fund’s name.

Category 3 includes uninsured and unregistered investments for which the securities held by the counterparty or by its trust department or agent, but not in the Pension Fund’s name.
Note 3 - DEPOSITS AND INVESTMENTS (Continued)

</tbody>
</table>

Investments not subject to categorization:

Louisiana Asset Management Pool (LAMP)

<table>
<thead>
<tr>
<th>Reported Amount</th>
<th>1,457,533</th>
</tr>
</thead>
</table>

Total investments | $1,815,626 |

Investments in the Louisiana Asset Management Pool are not categorized as to credit risk because they are not evidenced by securities that exist in physical or book entry form.

At December 31, 2001, the Fund reported an outstanding check in the amount of $500,000 payable to LAMP for the purpose of transferring investment funds from Certificates of Deposits to LAMP. The amount of the outstanding check is included in the balance of the investment in LAMP, reported above.

LAMP, a local government investment pool, is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. While LAMP is not required to be a registered investment company under the Investment Company Act of 1940, its investment policies are similar to those established by Rule 2a7, which governs registered money market funds. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities. The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days.
Note 3 - DEPOSITS AND INVESTMENTS (Continued)

The fair market value of investments is determined on a weekly basis to monitor any variances between amortized cost and market value. For purpose of determining participants' shares, investments are valued at amortized cost, which approximates fair value. Accordingly, the fair value of the Fund's position in LAMP is the same as the value of LAMP shares. LAMP is designed to be highly liquid to give its participants immediate access to their account balances.

The FNMA and FHLMC Notes are not guaranteed as to principal and interest by the full faith and credit of the United States. The FNMA and FHLMC Notes are held in trust by a third-party bank in the Pension Fund’s name.

Note 4 - REQUIRED SUPPLEMENTARY INFORMATION

In accordance with Statement No. 25, required supplementary information can be found in the attached schedules.

Note 5 - COMPENSATION OF BOARD MEMBERS

Members of the Pension Fund Board serve without compensation.

SUPPLEMENTARY INFORMATION SECTION
INDEPENDENT AUDITOR’S REPORT ON ADDITIONAL INFORMATION

To the Board of Trustees of the
Firemen’s Pension and Relief Fund,
City of Houma, Louisiana.

Our report on our audit of the general-purpose financial statements of the Firemen’s Pension and Relief Fund (the Pension Fund) for the year ended December 31, 2001, appears on pages 1 and 2. That audit was conducted for the purpose of forming an opinion on such financial statements taken as a whole. The information contained in the schedule of additions and deductions and graphs of additions and deductions for the year ended December 31, 2001 is presented for purposes of additional analysis and is not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general-purpose financial statements for the year ended December 31, 2001, taken as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the statement of plan net assets of the Firemen’s Pension and Relief Fund as of December 31, 2000 and 1999, and the related statement of changes in plan net assets for each of the two years in the period ended December 31, 2000 (none of which is presented herein), and we expressed unqualified opinions on those financial statements. In our opinion, the information presented in the schedule of additions and deductions and graphs of additions and deductions for the years ended December 31, 2000 and 1999 is fairly stated in all material respects in relation to the general-purpose financial statements from which it has been derived.

ADDITIONS

Firemen's Pension and Relief Fund

For the years ended December 31, 2001, 2000, and 1999
DEDUCTIONS

Firemen's Pension and Relief Fund

For the years ended December 31, 2001, 2000, and 1999
SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS
To the Board of Trustees of the
Firemen's Pension and Relief Fund,
City of Houma, Louisiana.

We have audited the general-purpose financial statements of the Firemen's Pension and Relief Fund (the Pension Fund), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2001, and have issued our report thereon dated February 18, 2002. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Pension Fund's general-purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Pension Fund's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.
This report is intended for the information of the Board of Trustees, management, the State of Louisiana and the Legislative Auditor for the State of Louisiana and is not intended to be and should not be used by anyone other than these specified parties.
