Notes to Financial Statements

June 30, 2003

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Reeves, Louisiana have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

1. Reporting Entity

As the governing authority of the Village, for reporting purposes, the Village of Reeves, Louisiana is the financial reporting entity. The financial reporting entity consists of (a) the primary government (Village), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Village of Reeves, Louisiana for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the Village to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Village.
2. Organizations for which the Village does not appoint a voting majority but are fiscally dependent on the Village.
3. Organizations for which the reporting entity financial statements could be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based upon the application of these criteria, there are no component units included in the Village's reporting entity.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

2. Fund Accounting

The accounts of the Village are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund or account group are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities, fund equity, revenues and expenses or expenditures.

The following funds and groups of accounts are used by the Village:

Governmental Fund Type:

General Fund-

The General Fund is the general operating fund of the Village. All financial resources, except those required to be accounted for in another fund, are accounted for in the General Fund.

Proprietary Fund Type:

Enterprise Fund-

The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the costs (expenses, including depreciation) of providing sewer services to the general public on a continuing basis is financed through user charges.

General Fixed Assets Account Group:

General Fixed Assets-

The General Fixed Assets Account Group is used to account for fixed assets used in governmental fund type operations for control purposes. All fixed assets are valued at historical cost. No depreciation is recorded on general fixed assets. Public domain ("infrastructure") general fixed assets including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are not capitalized, as these assets are immovable and of value only to the Village.

3. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers property taxes as available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. The Village applies all applicable FASB pronouncements in accounting and reporting for its proprietary operations.

The accrual basis of accounting is utilized by proprietary fund type. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The Village applies all applicable FASB pronouncements in accounting and reporting for its proprietary operations. Those revenues susceptible to accrual are property taxes, franchise taxes, licenses, interest and sewer fees.

4. Budgets

A budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America for the general fund. All annual appropriations lapse at fiscal year end.

On or before the last meeting of each year, the budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

VILLAGE OF REEVES, LOUISIANA

Notes to Financial Statements

June 30, 2003

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The proposed budget is presented to the government's Board of Council for review. The board holds a public hearing and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated. The budget was amended once during the year.

5. Cash and Investments

Cash includes amounts in demand deposits and time deposits with original maturities of 90 days or less. Investments include time deposits with original maturities of more than 90 days. Under state law, the Village may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At June 30, 2003, the Village has \$256,239 in deposits (collected bank balances). \$104,281 is secured from risk by federal deposit insurance and \$151,958 is secured by pledged securities.

6. Accounts Receivable

Uncollectible amounts due for sewer charges and other receivables are recognized as bad debts at the time information becomes available which would indicate that the particular receivable is not collectable. This method does not result in a charge to bad debts that is materially different from the amount that would be charged if the reserve method were used.

7. Statement of Cash Flows

For the purpose of the Statement of Cash Flows, for the enterprise fund, the Village considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

8. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

9. Total Columns on Combined Statements

Total columns on the general purpose financial statements are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, or results of operations in conformity with accounting principles generally accepted in the United States of America. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

10. Comparative Data

Comparative totals for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the Village's financial position and operations. However, presentation of prior year totals by fund type have not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

NOTE B - PROPERTY TAXES

For the year ended June 30, 2003, taxes for general purposes were levied on property as follows:

<u>Millage</u>	<u>Assessed Valuations</u>	<u>Taxes Levied</u>
6.58	\$ 502,140	\$ 3,304

Property tax millage rates are adopted in July of the calendar year in which the taxes are levied and recorded. All taxes are due and collectible when the assessment rolls are filed on or before November 15th of the current year, and become delinquent after December 31st. Property taxes not paid by February 28th are subject to property lien.

NOTE C - FIXED ASSETS - CONTINUED

Additions to the proprietary fund fixed assets are recorded at cost. Repairs and maintenance are recorded as expenses; renewals and betterments are capitalized. The sale or disposal of fixed assets is recorded by removing cost and accumulated depreciation from the accounts and charging the resulting gain or loss to income.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful life is 50 years for plant and 10 years for equipment.

NOTE D - CONTRIBUTED CAPITAL

During the year, contributed capital changed by the following amount:

Depreciation of fixed assets acquired by funds externally restricted for capital expenditures	\$ (15,831)
CONTRIBUTED CAPITAL, BEGINNING	<u>643,381</u>
CONTRIBUTED CAPITAL, ENDING	<u>\$ 627,550</u>

NOTE E - COMPENSATION/PER DIEM

NOTE F - RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Village. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

INDEPENDENT ACCOUNTANTS' REPORT
ON APPLYING AGREED-UPON PROCEDURES

September 12, 2003

The Honorable Shelley Tyler, Mayor and the
Board of Councilmen
Village of Reeves, Louisiana

We have performed the procedures included in the Louisiana Government Audit Guide and enumerated below, which were agreed to by the management of Village of Reeves, Louisiana and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about Village of Reeves, Louisiana's compliance with certain laws and regulations during the year ended June 30, 2003 included in the accompanying Louisiana Attestation Questionnaire. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$15,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

There were no expenditures made during the year for materials and supplies exceeding \$15,000 or public works exceeding \$100,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

Management provided us with the required list.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

No individuals listed in (3) above were included in the family member list in (2) above.

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

The Village provided us with the legally adopted budget for the year ended June 30, 2003. One amendment was made during the year.

6. Trace the budget adoption and amendments to the minute book.

We traced the adopted budget and amendment to approval in the minutes.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues or expenditures exceed budgeted amounts by more than 5%.

The general fund actual revenues were less than budgeted amounts by 7.5%.

Accounting and Reporting

8. Randomly select 6 disbursements made during the period under examination and:

- (a) trace payments to supporting documentation as to proper amount and payee;

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

- (b) determine if payments were properly coded to the correct fund and general ledger account.

The payments were properly coded to the correct fund and general ledger account.

- (c) determine whether payments received approval from proper authorities.

The payments received proper approvals.

Meetings

- 9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

The Village is only required to post a notice of each meeting and the accompanying agenda at the city hall, a public place. We found no evidence of noncompliance.

Debt

- 10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected copies of bank deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

- 11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

A reading of the minutes of the Village and a review of payroll records indicated no payments for any bonuses, advances or gifts.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of Village of Reeves, Louisiana, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. However, this report is a matter of public record and its distribution is not limited.

Management's Corrective Action Plan

Year Ended June 30, 2003

2002-01 Budgeting

Finding: General Fund actual revenues were less than budgeted amounts by more than 5%.

Response: The variance between budgeted amounts and actual amounts was an oversight, in the future we will monitor the budget to actual comparisons on a monthly basis and amend the budget, when necessary, to comply with the law.
