(Date)

Office of Legislative Auditor
Attention: Ms. JoAnne Sanders
1600 North Third
P.O. Box 94397
Baton Rouge, LA 70804-9397

Dear Ms. Sanders:

In accordance with Louisiana Revised Statute 24:514, enclosed are the annual financial statements for the Lafourche Parish Drainage Dist. #13 as of and for the fiscal year ended December 31, 192001. The report includes all funds under the control and oversight of the district (list any exceptions). The accompanying financial statements have been prepared in accordance with generally accepted accounting principles (list any exceptions or specify the cash basis of accounting instead of in accordance with generally accepted accounting principles).

[The following should be added for coroners, registrars of voters, levee districts and drainage districts]

Louisiana Revised Statutes 42:283-286 require [coroners, registrars of voters, levee districts, drainage districts] to file financial reports with the parish police jury (council) and clerk of court. The Lafourche Parish Drainage Dist. [coroner, registrar of voters, levee district, drainage district] has complied with these reporting requirements. These financial reports were submitted to the Lafourche Parish Police Jury and Lafourche Parish Clerk of Court and included expenditures made by the [coroner's registrar of voters', levee district's, drainage district's] office for the year ended December 31, 192001, classified under the following headings: (1) salary of officials; (2) salaries of deputies and other employees; (3) office supplies and furnishings; and (4) other expenditures.

In addition to the above, the names of all officials and employees, including their salary or compensation paid during the fiscal year was reported to the parish police jury and clerk of court.

Sincerely,

Officer

ANNUAL SWORN FINANCIAL STATEMENTS AND CERTIFICATION OF REVENUES \$50,000 OR LESS (if applicable)

The annual sworn financial statements are required by Louisiana Revised Statute 24:514 to be filed with the Legislative Auditor within 90 days after the close of the fiscal year. The certification of revenues \$50,000 or less, if applicable, is required by Louisiana Revised Statute 24:513(1)(1)(c)(i).

Personally came and appeared before the undersigned authority, Jimmy W. Gervais (name), who, duly sworn, deposes and says that the financial statements herewith given present fairly the financial position of LaFourche Parish Drainage Dist. No 12 (entity name) as of December 31, 2001, and the results of operations for the year then ended, in accordance with the basis of accounting described within the accompanying financial statements.

(Complete if applicable)

In addition, Jimmy W. Gervais (name), who, duly sworn, deposes and says that LaFourche Parish Drainage Dist. No 12 (entity name) received \$50,000 or less in revenues and other sources for the year ended December 31, 2001 and accordingly, is not required to have an audit for the previously mentioned year.

Lafourche PARISH Drainage DISTRICT
Lafourche PARISH POLICE JURY
Raceland, Louisiana

Notes to the Financial Statements 20
As of and for the Year Ended Dec. 31, 1901

INTRODUCTION

[Include specific information about the district, such as:

1. How the district was created, including making reference to the specific Louisiana Revised Statutes, if applicable.
2. The purpose of the district.
3. Number of board members, how appointed, and whether they are compensated.
4. Geographic location and size of the district.
5. The population of the district or the number of people served.
6. Number of employees or an explanation if there are no employees.
7. Quantitative information about the district's operations (number of and type of facilities maintained, approximate number of miles of canals maintained for drainage, etc.).]

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying general purpose financial statements of the Lafourche Parish Drainage District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. REPORTING ENTITY

The district is a component unit of the Lafourche Parish Police Jury, the financial reporting entity. The police jury is financially accountable for the district because it appoints a voting majority of the board and has the ability to impose its will on them.

The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. FUND ACCOUNTING

The district uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds of the district are classified as governmental funds. Governmental funds account for the district's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds of the district include (include those funds included in the accompanying statements):

1. General Fund--the general operating fund of the district and accounts for all financial resources, except those required to be accounted for in other funds.
2. Debt Service Fund--accounts for transactions relating to resources retained and used for the payment of principal and interest on those *long-term obligations recorded in the general long-term obligations account group.*
3. Capital Projects Fund--accounts for financial resources received and used for the acquisition, construction, or improvement of capital facilities not reported in the other governmental funds.

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used by the governmental funds. The governmental funds use the following practices in recording revenues and expenditures:

Revenues SEE Attached "B"

(This space should be used to describe when various revenues are reported. Specifically, ad valorem taxes, grants, and any other material revenues should be described.)

Expenditures SEE Attached "C"

(This space should be used to describe when various expenditures are reported. Specifically, salaries, major expenditures, and principal and interest on long-term debt should be described.)

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid (and any other financing source/use) are accounted for as other financing sources (uses). (Also, include when recorded.)

E. BUDGETS SEE Attached "D"

The district uses the following budget practices:

[This space should be used to describe the district's budget practices. The comments should include the following:

1. The budgetary calendar [specific dates or time frame for (a) when the budget is published in the official journal and made available for public inspection; (b) when the public hearing for the proposed budget was held; and (c) when the budget was adopted].
2. Whether or not appropriations (unexpended budget balances) lapse at year-end.
3. Procedures relative to outstanding encumbrances.
4. Basis of preparing and reporting the budgets and those funds not budgeted, and those components excluded from the budget comparison.
5. The level of administrative authority to make changes or amendments within various budget classifications. Also, disclose if amendments have been made to the original budget and if all amendments are reflected in the budget comparison.

Lafourche PARISH POLICE JURY
Boceband, Louisiana
Notes to the Financial Statements (Continued)

There should be a reconciliation of any non-GAAP budget amounts on Statement C to the amounts on Statement B, using the excess of revenues and other sources over expenditures and other uses as the base of the reconciliation.]

F. ENCUMBRANCES

(Describe the district's use of encumbrance accounting.)

G. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. [Include the district's established policy concerning which short-term, highly liquid investments it will treat as cash equivalents. For example, cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less.] Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

H. INVESTMENTS

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955 and the district's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

[GASB Statement No. 31 requires the following disclosures:

1. The methods and significant assumptions used to estimate the fair value of investments, if that fair value is based on other than quoted market prices.
2. The policy for determining which investments, if any, are reported at amortized cost.
3. For any investments in external investment pools that are not SEC-registered, a brief description of any regulatory oversight for the pool and whether the fair value of the position in the pool is the same as the value of the pool shares.
4. Any involuntary participation in an external investment pool.

Lafourche PARISH DRAINAGE DISTRICT
Lafourche PARISH POLICE JURY
Raceland, Louisiana
Notes to the Financial Statements (Continued)

5. If an entity cannot obtain information from a pool sponsor to allow it to determine the fair value of its investment in the pool, the methods used and significant assumptions made in determining that fair value and the reasons for having had to make such an estimate.
6. Any income from investments associated with one fund that is assigned to another fund.

GASB Statement No. 31 requires the district to report investments at fair value in the balance sheet, except as follows:

1. Investments in *nonparticipating* interest-earning contracts, such as nonnegotiable certificates of deposit with redemption terms that do not consider market rates, should be reported using a cost-based measure, provided that the fair value of those contracts is not significantly affected by the impairment of the credit standing of the issuer or other factors.
2. The district may report at amortized cost money market investments and participating interest-earning investment contracts that have a remaining maturity at time of purchase of one year or less, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments that include U.S. Treasury obligations. Interest-earning investment contracts include time deposits with financial institutions (such as certificates of deposit), repurchase agreements, and guaranteed investment contracts.

You should refer to GASB Statement No. 31 for guidance relating to the reporting and disclosures of investments and investment income.]

I. INVENTORIES

Inventories are valued at the lower of cost or market (specify any other method of valuation). Inventories consist of expendable supplies held for consumption (or explain if other than expendable supplies). Expenditures are recognized when the items are purchased (or consumed). Inventories at year-end are equally offset by fund balance reserves (if on the purchase method).

J. PREPAID ITEMS

(Describe the district's policy for prepaid items.)

K. FIXED ASSETS

Fixed assets are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized (reported) in the general fixed assets account group. Public domain or infrastructures are not (are) capitalized. Interest costs incurred during construction are (are not) capitalized (or construction period interest is immaterial and is not capitalized). No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost or estimated cost (the extent to which fixed assets costs have been estimated and the methods of estimation should be disclosed) if historical cost is not available (or describe other method of valuation).

L. COMPENSATED ABSENCES

The district has the following policy relating to vacation and sick leave:

(If the district does not have a formal leave policy or the leave policy does not provide for the accumulation and vesting of leave, the notes should so state.)

The district's recognition and measurement criteria for compensated absences follows:

[GASB Statement No. 16 provides that vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if *both* of the following conditions are met:

- a. The employees' rights to receive compensation are attributable to services already rendered.
- b. It is probable that the employer will compensate the employees for the *benefits through paid time off or some other means, such as cash payments at termination or retirement.*

GASB Statement No. 16 provides that a liability for sick leave should be accrued using one of the following termination approaches:

- a. An accrual for earned sick leave should be made only to the extent it is probable that the benefits will result in termination payments, rather than be taken as absences due to illness or other contingencies, such as medical appointments and funerals.
- b. Alternatively, a governmental entity should estimate its accrued sick leave liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as well as other employees who are expected to become eligible in the future to receive such payments.

Lafourche PARISH District DISTRICT
Lafourche PARISH POLICE JURY
Raceland, Louisiana
Notes to the Financial Statements (Continued)

Only the current portion of the liability for compensated absences should be reported in the fund. The current portion is the amount left unpaid at the end of the reporting period that normally would be liquidated with expendable available financial resources. The remainder of the liability should be reported in the general long-term obligations account group.]

M. LONG-TERM OBLIGATIONS

Long-term obligations expected to be financed from governmental funds are reported in the general long-term obligations account group. Expenditures for principal and interest payments for long-term obligations are recognized in the governmental funds when due.

N. FUND EQUITY

Reserves

Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use.

Designated Fund Balances

Designated fund balances represent tentative plans for future use of financial resources.

O. TOTAL COLUMNS ON STATEMENTS

The total columns on the statements are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation

SEE Attached "F"

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At December 31, 19__, the district has \$_____ in deposits (collected bank balances). These deposits are secured from risk by \$_____ of federal deposit insurance and \$_____ of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3). [If deposits are not fully secured, add the following: The remaining balance of \$_____ is not secured by the pledge of securities and is a violation of state law.]

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement No. 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the district that the fiscal agent has failed to pay deposited funds upon demand.

5. INVESTMENTS

Investments are categorized into these three categories of credit risk:

1. Insured or registered, or securities held by the district or its agent in the district's name
2. Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the district's name
3. Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the district's name

8. PENSION PLAN N/A

(Disclosure should comply with GASB Statement No. 27. If the district is a member of the Parochial Employees' Retirement System of Louisiana, the following should be used.)

Plan Description. Substantially all employees of the _____ Parish _____ District are members of the Parochial Employees' Retirement System of Louisiana (System), a cost-sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. [All employees of the district are members of (Plan A) (Plan B).] [or Some employees of the district are members of Plan A and some are members of Plan B.]

All permanent employees working at least 28 hours per week who are paid wholly or in part from parish funds and all elected parish officials are eligible to participate in the System. [Under Plan A, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 25 years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3% of their final-average salary for each year of creditable service. However, for those employees who were members of the supplemental plan only before January 1, 1980, the benefit is equal to 1% of final average salary plus \$24 for each year of supplemental-plan-only service earned before January 1, 1980.] [Under Plan B, employees who retire at or after age 62 with at least 10 years of creditable service or at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2% of their final-average salary in excess of \$100 for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years, may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3% for each year retirement precedes age 62. In any case, monthly retirement benefits paid under Plan B

cannot exceed the lesser of 100% of final-average salary or \$70 multiplied by total years of creditable service.] Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above and do not withdraw their employee contributions may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619, or by calling (504) 928-1361.

Funding Policy. [Under Plan A, members are required by state statute to contribute 9.5% of their annual covered salary and the district is required to contribute at an actuarially determined rate. The current rate is 5.5% of annual covered payroll.] [Under Plan B, members are required by state statute to contribute 2.0% of their annual covered salary in excess of \$1,200 and the district is required to contribute at an actuarially determined rate. The current rate is 2.50% of annual covered payroll.] Contributions to the System also include one-fourth of one percent (except Orleans and East Baton Rouge parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the district are established and may be amended by state statute. As provided by R.S. 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. [The district's contributions to the System under Plan A for the years ending December 31, 1998, 1997, and 1996, were \$_____, \$_____, and \$_____, respectively, equal to the required contributions for each year.] [The district's contributions to the System under Plan B for the years ending December 31, 1998, 1997, and 1996, were \$_____, \$_____, and \$_____, respectively, equal to the required contributions for each year.] (If the required contributions and the actual amount contributed do not equal, disclose the required contribution in dollars and the percentage of that amount contributed for the current year and each of the two preceding years.)

9. OTHER POSTEMPLOYMENT BENEFITS

N/A

[GASB Statement No. 12 requires, as a minimum, the following disclosures if the district provides other postemployment benefits (OPEB). The disclosures may be made separately for one or more types of benefits or in the aggregate for all OPEB provided.

- A. A description of the OPEB provided; employee groups covered; eligibility requirements; and the employer and participant obligations to contribute, quantified in some manner (for example, the approximate percentage of the

total obligation to contribute that is borne by the employer and the participants, respectively, or the dollar or percentage contribution rates).

- B. A description of the statutory, contractual, or other authority under which OPEB provisions and obligations to contribute are established.
- C. A description of the accounting and financing or funding policies followed; for example, a statement that the employer's contributions are financed on a pay-as-you-go basis or are advance-funded on an actuarially determined basis. If OPEB are advance-funded on an actuarially determined basis, the employer should also disclose the actuarial cost method and significant actuarial assumptions (including the interest rate and, if applicable, the projected salary increase assumption and the health inflation assumption) used to determine funding requirements, and the method used to value plan assets.
- D. The following expenditure/expense information, depending on how OPEB are financed:
 - 1. If OPEB are financed on a pay-as-you-go basis, the amount of OPEB expenditures/expenses recognized during the period by the employer (net of participant contributions); also disclose the number of participants currently eligible to receive benefits. If expenditures/expenses for OPEB cannot readily be separated from expenditures/expenses for similar types of benefits provided to active employees and their dependents, employers should use reasonable methods to approximate OPEB expenditures/expenses. If a reasonable approximation cannot be made, employers should state that OPEB expenditures/expenses cannot be reasonably estimated.
 - 2. If OPEB are advance-funded on an actuarially determined basis, the number of active plan participants, the employer's actuarially required and actual contributions for the period (net of participant contributions), the amount of net assets available for OPEB, and the actuarial accrued liability and unfunded actuarial accrued liability for OPEB according to the actuarial cost method in use.
- E. A description (and the dollar effect, if measurable) of any significant matters that affect the comparability of the disclosures with those for the previous period (for example, a change in benefit provisions).
- F. Any additional information that the employer believes will help users assess the nature and magnitude of the cost of the employer's commitment to provide OPEB.]

Notes To Financial Statements
Year Ending December, 2001

ATTACHMENT: A (INTRODUCTION)

The Lafourche Parish Drainage District No.12 was created by the Lafourche Parish Council, as authorized by Louisiana Revised Statutes 38:1601-1707. The District is governed by a board of five commissioners who are qualified voters and residents of the District. The commissioners are appointed by and serve at the pleasure of the Council. Louisiana Revised Statute 38:1607 provides that commissioners may receive per diem of \$65 for each meeting of the commission they attend; however, the District's commissioners have elected not to receive any compensation for their services. The board has no full time employees.

The District is a component unit of the Lafourche Parish Council. The Lafourche Parish Council is financially accountable for the District, because it appoints all members of their governing board and has the ability to impose its will on them.

ATTACHMENT: B (REVENUES)

Revenues are recognized when they become "measurable" at the time of Levy, miscellaneous revenues are recorded as revenues when received in cash by the district or intermediary Collecting Agency because they are not measurable until actually received.

ATTACHMENT: C (EXPENDITORS)

Expenditures are generally recognized under the modified accrual bases of accounting when the related fund liability is incurred.

ATTACHMENT : D (BUDGETS) See Attached for Budget

LEVIED PROPERTY TAXES: "E"

Property taxes are levied each November 1 on the assessed value listed as of the prior year January 1 for all real property, merchandise, and moveable property located in Lafourche Parish. Assessed values are established by the Lafourche Parish Assessors Office and the State Tax Commission at percentage of actual value as specified by Louisiana State Law.

The tax rates for the year ending December 31,2000, was \$20.00 per \$1000 of assessed valuation on property within each sub-district of Drainage District No.12 for the purpose of maintaining and operating drainage works within the District.

Each sub-district also receives a \$2.50 per acre of land within the sub-districts. The Board of Commissioners authorized this additional property tax upon approval of the property tax payers of the District. The proceeds of the tax shall be used to maintain and preserve the drains and pumps of the District.
