CERTIFIED PUBLIC ACCOUNTANT
(A PROFESSIONAL CORPORATION)

Independent Auditor's Report

To the Board of Commissioners
Water Works District Number 4
of West Baton Rouge Parish, Louisiana
Port Allen, Louisiana

I have audited the financial statements of Water Works District Number 4 of West Baton Rouge Parish, Louisiana, a component unit of the West Baton Rouge Parish Council, as of and for the years ended June 30, 2003 and 2002 listed in the foregoing table of contents. These financial statements are the responsibility of the management of the Water District. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

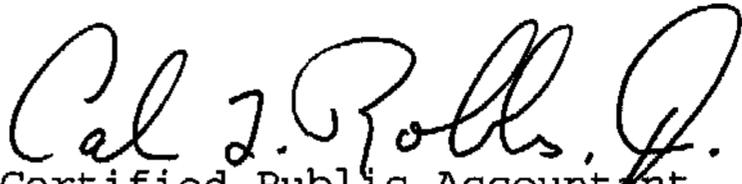

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Water Works District Number 4, of West Baton Rouge Parish as of June 30, 2003 and 2002. And the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In the course of my audit, nothing came to my attention that caused me to believe there has been any lack of compliance with the accounting or reporting requirements of the bond ordinance under which outstanding revenue bonds have been issued.

Water Works District Number 4

In accordance with Government Auditing Standards, I have issued my report dated November 10, 2003 on my consideration of the Water Works District Number 4 of West Baton Rouge Parish Louisiana's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of my audit.

My audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying financial information listed as "Supplementary Information" in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Water Works District Number 4 of West Baton Rouge Parish, Louisiana. Such information, except for the Schedule of Insurance Coverage and Operating Statistics marked "unaudited", on which I express no opinion, has been subjected to the auditing procedures applied in the audit of the financial statements and, in my opinion, is fairly stated in all material respects in relation to such financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

June 30, 2003 and 2002

Introduction

Water Works District Number 4 operates a water system serving residences and businesses in parts of West Baton Rouge Parish. The Water District extends credit to its customers. The district does not require its customers to furnish collateral for their accounts.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Water Works District Number 4 of West Baton Rouge Parish have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting standards. The Financial Accounting Standard Board (FASB) and the Accounting Principles Board are the accepted standard setting body for establishing accounting and financial reporting standards for entities other than governmental units. The Water District applies all FASB pronouncements and APB opinions issued on or before November 30, 1989, unless those pronouncements conflict with GASB pronouncements, in which case, GASB prevails.

Reporting Entity

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Statement No. 14, the Water Works District Number 4 of West Baton Rouge Parish includes all funds, account groups, et cetera, that are within the oversight responsibility of the Water District. Based on the criteria set forth in GASB Statement No. 14, the Water District is a component unit of the West Baton Rouge Parish Council. The basis criteria is the Council's ability to exercise oversight responsibility. The Parish Council appoints the members of the Water District's board of commissioners and approves the District's budget.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Cont'd)

Other criteria used to determine if a governmental unit is a component unit are financial interdependency, designation of management, the ability to significantly influence operations and accountability for fiscal matters. Based on all the criteria set forth the Water Works District Number 4 of West Baton Rouge Parish has no component units.

Enterprise Fund

Water Works District Number 4 is operated as an enterprise fund, and as such employs the accrual method of accounting. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Water System

All assets are recorded at original cost. Interest costs incurred during and related to construction are capitalized. Depreciation is recorded on all exhaustible fixed assets over their estimated useful lives using the straight-line method. The service life of the water system is 25 to 50 years. Equipment used in providing water service is depreciated over 4 to 10 years.

Deferred Expenses

The cost of issuing the Water Works Revenue Bond is being amortized over the term of the bond issue using the straight-line method.

Investment Securities

Investment securities are carried at fair market value as required by GASB Statement Number 31.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Cont'd)

Statement of Cash Flows

For purposes of the statement of cash flows, Water Works District Number 4 considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents. The Water District does not consider its investment in debt securities or any funds held by its brokers as cash equivalents (See Note 4).

Long-Term Liabilities

Long-term liabilities are recognized within the Enterprise Fund.

Fund Equity

Contributed Capital

Grants, entitlement, or shared revenues received that are restricted for the acquisition or construction of capital assets are recorded as contributed capital. Contributed capital is not amortized based on the depreciation recognized on that portion of the assets acquired from such contributions.

Reserves

Reserves represent those portions of fund equity legally segregated for a specific future use.

Organization

Water Works District Number 4 was established to construct and acquire a complete water system for the benefit of the residents and customers of the Water Works District as designated by the West Baton Rouge Parish Council. The Water Works District was granted a franchise to operate by the Parish Council in February, 1982. Water sales began in July, 1982.

NOTE 2. CASH AND CASH EQUIVALENTS

Cash is shown on the balance sheet under current assets and restricted assets. The carrying value of cash on deposit with financial institutions on June 30, 2003 was \$814,080. These deposits are stated at cost, which approximates market.

Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At June 30, 2003, the bank balances of the Districts' deposits were \$807,463. These deposits are secured from risk by \$100,000 of federal deposit insurance and \$792,570 of pledged securities held by the custodial bank in the name of the fiscal agent bank.

Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement No. 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the district that the fiscal agent has failed to pay deposited funds upon demand.

NOTE 3. RESTRICTED ASSETS

The restricted assets are accounts required to be maintained under the terms of the bond indenture of the outstanding Water Works Revenue Bond dated July 8, 1982. They are as follows:

- A) The Revenue Bond Sinking Fund is to be used for paying principal and interest due on the Water Works Revenue Bond. Monthly deposits are required to be made into the account sufficient to pay principal and interest when due. Balances at June 30, 2003 and 2002 were \$100,992 and \$100,992 respectively.

NOTE 3. RESTRICTED ASSETS - (Cont'd)

- B) The Revenue Bond Reserve Fund is to be used solely for the purpose of paying the principal and interest on bonds payable from the Revenue Bond Sinking Fund which would otherwise be in default. Balances at June 30, 2003 and 2002 were \$93,613 and \$88,686, respectively. As of June 30, 2003 and 2002, this fund was adequately funded.
- C) The Depreciation and Contingency Fund is to be used to pay for any unforeseen repairs to the system. Balances at June 30, 2003 and 2002 were \$92,112 and \$87,264, respectively. As of June 30, 2003 and 2002, this fund was adequately funded.

These three accounts are shown on the balance sheet as Revenue Bond Restricted Funds. The three accounts totaled \$286,717 and \$276,942 at June 30, 2003 and 2002, respectively.

NOTE 4. INVESTMENTS

At June 30 the Water District had investments as follows:

<u>2003:</u>	<u>Fair Value Carrying Amount</u>	<u>Cost</u>

NOTE 8. WATER SYSTEM AGREEMENT

Water Works District Number 4 leases several water systems from the West Baton Rouge Parish Public Utility under a local services agreement entered into February, 1982. The lease expired in prior years. The District has continued to lease the water systems on a month to month basis since the expiration of the lease.

System rental expense on the leased water systems was \$1,251 for 2003 and 2002, respectively. The system rental expense payable at June 30, 2003 and 2002 totaled \$2,983 for both years and is included in Intergovernmental Payables on the balance sheet.

NOTE 8. WATER SYSTEM AGREEMENT - (Cont'd)

A separate operating agreement requires the Public Utility to operate the systems it leases to the Water Works District. The agreement also provides for the Public Utility to operate any additional water systems acquired or constructed by the Water Works District. The operating agreement's term coincides with that of the local services agreement described above.

Fees under the operating agreement are based on the Water System's proportionate share of the Public Utility's office, administrative, operating and maintenance expenses. The Public Utility billed Water Works District Number 4 a total of \$87,320 from July 1, 2002 to June 30, 2003 and \$85,911 from July 1, 2001 to June 30, 2002. Of these amounts, \$7,329 and \$7,220 were payable at June 30, 2003 and 2002, respectively.

The Public Utility also bills the Water Works District for services not covered by the operating agreement. During the current year, the District was billed \$46,932 for these services. Of that amount, \$19,321 was capitalized and \$27,611 was expensed. The Water District owed \$4,936 and \$2,782 to the Public Utility for these services at June 30, 2003 and June 30, 2002, respectively. During the year ended June 30, 2002, the District was billed \$70,189 by the Public Utility; \$35,052 was capitalized and \$49,414 was expensed.

All amounts owed to the Public Utility, under the various agreements discussed above, are included under the Current Liabilities section of the Balance Sheet in Intergovernmental Payables.

In addition to the regular services provided for under the operating agreement, the Public Utility assisted the Water District in relocating some of its water lines during the year ended June 30, 1991. The relocation was required by the Louisiana Department of Transportation. Total cost of relocating the Water District's lines was \$48,498. That amount was unpaid at June 30, 2003 and 2002 and is shown in the Other Liabilities section of the Balance Sheet.

NOTE 9. FARMERS HOME ADMINISTRATION GRANT

Water Works District Number 4 received a grant from the Farmers Home Administration for use in the acquisition, construction, enlargement or capital improvement of the water systems in its area of operation. The grant was for up to \$600,000 of approved expenditures on the above described activities. All grant funds were received and expended in prior years.

NOTE 10. GARBAGE FEE SERVICE AGREEMENT

Water Works District Number 4 entered into a joint services agreement with the Parish Council during 1986 whereby the District bills and collects a garbage collection fee on behalf of the Parish Council. The District retains thirty-three cents per customer every month to cover its billing expenses (classified as Collection Fees on the Statement of Revenue and Expenses). The remainder is remitted to the Parish Council as collected. At June 30, 2003 and 2002, the District had collected but not remitted \$23,831 and \$23,776, respectively, to the Parish Council. This payable is included under the Current Liabilities section of the Balance Sheet in Intergovernmental Payables.

NOTE 11. SEWER FEE SERVICE AGREEMENT

Water Works District Number 4 entered into a joint services agreement with the Parish Council during 1987 whereby the District bills and collects sewer user fees for sewer systems within the District on behalf of the Parish Council and remits the fees to the Parish Council. In consideration for the collection of sewer user fees by the District, the Parish Council, through its Utility Systems, operates and maintains the sewer plants and systems located within Water Works District Number 4. At June 30, 2003, the District had collected but not remitted \$4,243 to the Parish Council (\$4,135 at June 30, 2002). This payable is included under the Current Liabilities section of the Balance Sheet in Intergovernmental Payables.

NOTE 12. RISK MANAGEMENT

The Water District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; and natural disasters. The District purchases commercial insurance policies at levels which management believes is adequate to protect the District. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL
OVER FINANCIAL REPORTING BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners
Water Works District Number 4
of West Baton Rouge Parish, Louisiana
Port Allen, Louisiana

I have audited the financial statements of the Water Works District Number 4 of West Baton Rouge Parish, a component unit of the West Baton Rouge Parish Council, as of and for the year ended June 30, 2003 and 2002, and have issued my report thereon dated November 10, 2003. I have conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

COMPLIANCE

As part of obtaining reasonable assurance about whether the Water District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing my audit, I considered the Water District's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, I noted certain matters involving the internal control over financial reporting and its operation that I considered to be a reportable condition. Reportable conditions involve matters coming to my attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in

Water Works District Number 4

my judgement, could adversely affect the Water District's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the following paragraph.

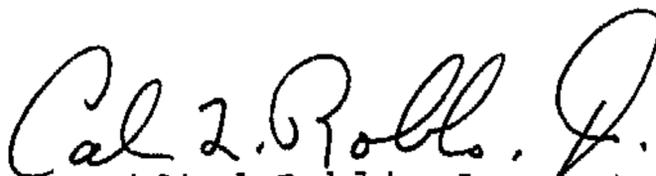

An important element in designing an internal accounting control system that safeguards assets and reasonably insures the reliability of the accounting records is the concept of segregation of responsibilities. No one person should be assigned duties that would allow that person to commit an error or perpetrate fraud and to conceal the error or fraud. For example, the same person should not be responsible for any two of the following functions:

- 1) Authorization of a transaction;
- 2) Recording of the transaction; and
- 3) Custody of assets involved in the transaction.

Due to the small size of the organization, a proper segregation of duties is not possible with respect to cash transactions. Management believes it is not practical or cost effective to correct this weakness.

A material weakness is a reportable condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, I believe that the reportable condition disclosed above relating to lack of segregation of duties is a material weakness.

This report is intended solely for the information of management, the District's board of commissioners, and the Legislative Auditor of the State of Louisiana and is not intended to be and should not be used by anyone other than these specified parties.
