#### INDEPENDENT ACCOUNTANT'S COMPILATION REPORT

December 16,2009

To the Board of Directors St. Helena Council on Aging, Inc. Greensburg, Louisiana

I have compiled the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Helena Council on Aging, Inc. (Council) as of and for the year ended June 30, 2009, which collectively comprises the Council's basic financial statements as listed in the table of contents and supplemental information, in accordance with Statements on Standards for Accounting and Review Services issued by American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements and supplemental information that is the representation of management. I have not audited or reviewed the accompanying financial statements and supplemental information, and, accordingly, do not express an opinion or any other form of assurance on them.

The St. Helena Council on Aging has not presented Management's Discussion and Analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Respectively submitted,

And C. Dut

## GOVERNMENT-WIDE FINANCIAL STATEMENTS

### NOTES TO THE FINANCIAL STATEMENTS

### St. Helena Council on Aging Greensburg, Louisiana June 30, 2009

## Note 1 - PURPOSE OF THE COUNCIL ON AGING AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of St. Helena Council on Aging (the Council) conform to the accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental and financial reporting principles. Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The following is a summary of certain significant accounting policies used by the Council:

#### a. Purpose of the Council on Aging

The purpose of the Council is to collect facts and statistics and make special studies of conditions pertaining to the employment, financial status, recreation, social adjustment, mental and physical health or other conditions affecting the welfare of the aging people in St. Helena Parish; to keep abreast of the latest developments in these fields of activity throughout Louisiana and the United States; to interpret its findings to the citizens of the parish and state; to provide for the mutual exchange of ideas and information on the parish and state level; to conduct public meetings; to make recommendations for needed improvements and additional resources; to promote the welfare of aging people; to coordinate and monitor services with other local agencies serving the aging people of the parish; to assist and cooperate with the Governor's Office of Elderly Affairs (GOEA), Capital Area Agency on Aging (CAAA), and other departments of state and local government serving the elderly, and; to make recommendations relevant to the planning and delivery of services to the elderly of the parish.

The primary services provided by the Council to the elderly residents of St. Helena Parish include congregate and home delivered meals, nutritional education, information and assistance, outreach, utility assistance, telephoning, wellness, medication management, family caregiver support, and transportation.

#### b. Reporting Entity

In 1964, the State of Louisiana passed Act 456 authorizing the charter of a voluntary council on aging for the welfare of the aging people in each parish of Louisiana. In 1979, the Louisiana Legislature created the Governor's Office of Elderly Affairs (GOEA) (La. R.S. 46:931) with the specific intention that GOEA administer and coordinate social services and programs for the elderly population of Louisiana through sixty-four parish voluntary councils on aging.

Before a council on aging can begin operations in a specific parish, its application for a charter must receive approval from GOEA pursuant to Louisiana Revised Statute (La. R.S.) 46:1602. Each council on aging in Louisiana must comply with the state laws that apply to quasi-public agencies, as well as the policies and regulations established by GOEA.

St. Helena Council on Aging (the Council) is a legally separate, non-profit, quasipublic corporation. The Council received its charter from the Governor of the State of Louisiana on March 19, 1973 and began operations on October 29, 1973, the date in which it filed its articles of incorporation with the Secretary of State's office.

A board of directors, consisting of 11 voluntary members, who serve three-year terms, governs the Council. The board of directors is comprised of, but not limited to, representatives of the Parish's elderly population, general public, private businesses, and elected public officials.

Board members are elected by the general membership of the Council. Membership in the Council is open at all times, without restriction, to all residents of St. Helena Parish who have reached the age of majority and who express an interest in the Council and wish to contribute to or share in its programs. Membership fees are not charged.

Based on the criteria set forth in GASB Statement 14, *The Financial Reporting Entity*, the Council is not a component unit of another primary government, nor does it have any component units that are related to it. In addition, based on the criteria set forth in this statement, the Council has presented its financial statements as a special-purpose, stand-alone government; accordingly, it is applying the provisions of Statement 14 as if it were a primary government.

#### c. Basis of Presentation of the Basic Financial Statements

The Council's basic financial statements consist of "government-wide" financial statements on all activities of the Council, which are designed to report the Council as a whole entity, and "fund" financial statements, which purpose are to report individual major governmental funds and combined nonmajor governmental funds.

Both the government-wide and fund financial statements categorize primary activities as either "governmental" or "business" type. The Council's functions and programs have all been categorized as "governmental" activities. The Council does not have any business-type activities, fiduciary funds, or any component units that are fiduciary in nature. Accordingly, the government-wide financial statements do not include any of these activities or funds.

### **Government-Wide Financial Statements:**

The government-wide financial statements include the Statement of Net Assets and the Statement of Activities for all activities of the Council. As a general rule, the effect of interfund activity has been eliminated from these statements. The government-wide presentation focuses primarily on the sustainability of the Council as an entity and the change in its net assets (financial position) resulting from the activities of the current fiscal year. Intergovernmental revenues primarily support governmental activities.

In the government-wide Statement of Net Assets only one column of numbers has been presented for total governmental activities. The numbers are presented on a consolidated basis and represent only governmental type activities.

The Statement of Net Assets has been prepared on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Council's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

### c. Basis of Presentation of the Basic Financial Statements (Continued)

The government-wide Statement of Activities reports both the gross and net cost of each of the Council's functions and significant programs. Many functions and programs are supported by general government revenues such as intergovernmental revenues, and unrestricted public support, particularly if the function or program has a net cost. The Statement of Activities begins by presenting gross direct and indirect expenses that include depreciation and amortization, and then reduces the expenses by related program revenues, such as charges for services, operating and capital grants, and restricted contributions, to derive the net cost of each function or program. Program revenues must be directly associated with the function or program to be used to directly offset its cost. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

Direct expenses reported in the Statement of Activities are those that are clearly identifiable with a specific function or program, whereas, the Council allocates its indirect expenses among various functions and programs in accordance with OMB Circular A-87. The Statement of Activities shows this allocation in a separate column labeled "indirect expenses."

In the Statement of Activities, charges for services represent program revenues obtained by the Council when it renders services provided by a specific function or program to people or other entities. Unrestricted contributions, unrestricted grants, and interest income that are not included among program revenues are reported instead as general revenues in this statement. Special items, if any, are significant transactions within the control of management that are either unusual in nature or infrequent in occurrence and are separately reported below general revenues. The Council did not have any special items this year.

### **Fund Financial Statements:**

The fund financial statements present financial information very similar to that which was included in the general-purpose financial statements issued by governmental entities before GASB Statement No. 34 required the format change.

### c. Basis of Presentation of the Basic Financial Statements (Continued)

The daily accounts and operations of the Council continue to be organized using funds and account groups. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain governmental functions or activities. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds are reported by generic classification within the financial statements.

The Council uses governmental fund types. The focus of the governmental funds' measurement (in the fund statements) is on determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than on net income. An additional emphasis is placed on major funds within the governmental fund types. A fund is considered major if it is the primary operating fund of the Council or if its total assets, liabilities, revenues, or expenditures are at least 10% of the corresponding total for all funds of that category or type. In addition, management may also choose to report any other governmental fund as a major fund if it believes the fund is particularly important to financial statement users. The nonmajor funds are summarized by category or fund type into a single column in the fund financial statements.

Governmental fund equity is called the fund balance. Fund balance is further classified as reserved and unreserved, with unreserved being further split into designated and undesignated. Reserved means that the fund balance is not available for expenditure because resources have already been expended (but not consumed), or a legal restriction has been placed on certain assets that makes them only available to meet future obligations. Designated fund balances result when management tentatively sets aside or earmarks certain resources to expend in a designated manner. In contrast to reserved fund balances, designated amounts can be changed at the discretion of management.

#### c. Basis of Presentation of the Basic Financial Statements (Continued)

The following is a description of the governmental funds of the Council:

The General Fund is the primary operating fund of the Council and is used to account for all financial resources except those required to be accounted for in another fund. The following is a brief description of the programs that comprise the Council's General Fund:

#### <u>Local</u>

The Council receives revenues that are not required to be accounted for in a specific program or fund. Accordingly, these revenues have been recorded in the local program of the General Fund. These funds are mostly unrestricted, which means they may be used at the Council's discretion. Expenditures to acquire fixed assets, and expenditures for costs not allowed by another program due to budget limitations or the nature of the expenditures, are charged to the local program. Because of their unrestricted nature, local funds are often transferred to other programs to eliminate deficits in cases where the expenditures of the other programs exceeded their revenues.

### <u>PCOA</u>

PCOA funds are appropriated for the Council by the Louisiana Legislature and remitted to the Council via the Governor's Office of Elderly Affairs. The Council may use these "Act 735" funds at its discretion provided the program is benefiting people who are at least 60 years old. In FY 2009, the Council transferred its PCOA funds to pay for program expenditures that exceeded the grant reimbursements from CAAA.

**Special Revenue Funds** are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. A significant percentage of the Council's special revenue funds are provided by Capital Area Agency on Aging - District II, Inc. (CAAA). The Title III funds, which the Council receives, are provided by the United States Department of Health and Human Services - Administration on Aging to GOEA, which in turn "passes through" the funds to the Council via CAAA. GOEA also provides CAAA funds from other state grants, which are passed through to the Council.

#### c. Basis of Presentation of the Basic Financial Statements (Continued)

The Council has established several special revenue funds. The following are brief descriptions of the purpose of each special revenue fund and their classification as either a major or nonmajor governmental fund:

#### Major Governmental Funds:

### <u>Title III B Fund</u>

The Title III B Fund is used to account for funds used to provide various units of supportive social services to the elderly. GOEA has established the criteria for a qualifying unit of service for each Title III program. Specific supportive services, along with the number of units provided during the fiscal year, are as follows:

|   | Units |
|---|-------|
| Information and Assistance                | 607   |
| Outreach                                  | 82    |
| Recreation                                | 665   |
| Telephoning                               | 5,186 |
| Transportation for people age 60 or older | 1,388 |
| Utilitiy assistance                       | 33    |

#### Title III C-1 Fund

The Title III C-1 Fund accounts for funds used to provide nutritional, congregate meals to people age 60 or older in strategically located centers throughout St. Helena Parish. The Council maintains meal-sites at Turnel Chapel and Dennis Mills. During the year the Council provided 7,175 meals to people eligible to participate in this program. The Council also provided 89 units of nutrition education under this program.

## Title III C-2 Fund

The Title III C-2 Fund accounts for funds that are used to provide nutritional meals to homebound people who are age 60 or older. During the year the Council provided 33,375 home-delivered meals. The Council also provided 188 units of nutrition education under this program.

### c. Basis of Presentation of the Basic Financial Statements (Continued)

### Senior Center Fund

The Senior Center Fund is used to account for the administration of Senior Center program funds appropriated by the Louisiana Legislature to GOEA, which in turn "passes through" the funds to the Council. The purpose of this program is to provide community service centers where elderly people can receive supportive social services and participate in activities which foster their independence, enhance their dignity, and encourage their involvement in and with the community. The Council maintains two senior centers at Turnel Chapel and Dennis Mills in St. Helena Parish. Senior Center funds can be used at management's discretion to support any of the Council's programs, which benefit the elderly. Accordingly, during the year, management transferred \$11,161 to the Title III B Fund, \$3,170 to the Title III C-1 Fund, and \$10,669 to the Title III C-2 Fund to subsidize the programs' cost of providing services to elderly persons who used the senior centers.

#### Nonmajor Governmental Funds:

#### **Title III D Fund**

The Title III D Fund is used to account for funds used for disease prevention and health promotion (wellness) activities. During the year the Council provided 259 units of wellness service and 29 units of medication management to eligible participants.

#### Title III E Fund

The Title III E Fund accounts for funds relating to the National Family Caregiver Support program, which targets older, low-income individuals. During the year, the Council provided 8 units of information and assistance under this program.

#### c. Basis of Presentation of the Basic Financial Statements (Continued)

#### Supplemental Senior Center Fund

The Louisiana Legislature appropriated additional money for various councils on aging throughout the state to be used to supplement the primary state grant for senior centers. The TVCOA was one of the parish councils to receive a supplemental grant of \$3,100. The Governor's Office of Elderly Affairs provided these funds to the Council. The money received by this fund during the year was transferred to the Title III C-2 Fund to offset the cost of providing home-delivered meals to participants receiving services at the senior centers.

#### **Compilation Fund**

The Compilation Fund is used to account for funds that are to be used as a subsidy to pay for the cost of having an annual compilation performed for the Council's financial statements. The full cost of the compilation (\$2,054) is charged to this fund. The compilation costs that exceed the subsidy are paid for with a transfer of Local program funds. GOEA provided \$410 of compilation subsidy funds to the Council via the CAAA.

#### **Utility Assistance Fund**

This fund is used to account for the administration of the utility assistance programs that are sponsored by local utility companies. The companies collect contributions from service customers and remit the funds to the parish councils on the aging throughout the state to provide assistance to the elderly for the payment of utility bills. The contributions can only be used to pay for direct services. No indirect or administration expenses can be paid for with these funds. During the year, the Council provided funds to 23 different people to assist them with paying their utility bills. The maximum amount of assistance a person can receive in one year is usually limited to \$300.

#### d. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### • Government-wide Financial Statements – Accrual Basis

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

#### • Fund Financial Statements - Modified Accrual Basis

Governmental fund level financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. current financial resources measurement focus means that only current assets and current liabilities are generally included on the fund balance sheet. The operating statements of the funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., when they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Council considers revenues to be "available" if they are collected within sixty days of the current fiscal year end. Expenditures are generally recorded under the modified accrual basis of accounting when the related liability is incurred, if measurable, except for the following: (1) unmatured principal and interest on longterm debt, if any, are recorded when due, and (2) claims, judgments, and compensated absences are recorded as expenditures when paid with expendable available financial resources. Depreciation and amortization are costs that are not recognized in the governmental funds.

### e. Interfund Activity

In the fund financial statements, interfund activity is reported as either loans or transfers. Loans between funds are reported as interfund receivables (due from) and payables (due to) as appropriate. Transfers represent a permanent reallocation of resources between funds. In other words, they are not expected to be repaid.

In the government-wide financial statements, all types of interfund transactions are eliminated when presenting the governmental activity information.

f. Cash

Cash includes not only currency on hand, but demand deposits with banks or other financial institutions.

For the purposes of the Statement of Net Assets, restricted cash are amounts received or earned by the Council with an explicit understanding between the Council and the resource provider that the resource would be used for a specific purpose.

#### g. Receivables

The financial statements for the Council do not contain an allowance for uncollectible receivables because management believes all amounts will be collected. However, if management becomes aware of information that would change its assessment about the collectibility of any receivable, management would write off the receivable as a bad debt at that time.

#### h. Investments

GASB Statement 31 requires the Council to report its investments at fair value in the balance sheet, except for investments in non-participating interest-earning contracts, such as non-negotiable certificates of deposit with redemption terms that do not consider market rates. This type of investment is reported using a cost-based measure, provided the fair market value of the contract is not significantly affected by the impairment of the credit standing of the issuer or other factors. The Council did not own any investments of this type at year-end.

Investments, which include securities traded on a national or international exchange, are valued based on their last reported sales price. Investments that do not have an established market are reported at estimated fair value. The Council did not own any investments of this type at year-end.

### i. Prepaid Expenses/Expenditures

Prepaid expenses include amounts paid in advance for goods and services. Prepaid expenses are shown as either current or other assets on the government-wide Statement of Net Assets, depending on when management expects to realize their benefits.

In the fund financial statements, management has elected not to include amounts paid for future goods and services as expenditures until those services are consumed. This method of accounting for prepaid expenditures helps assure management that costs incurred will be reported in accordance with the Council's cost reimbursement grants. These types of grants do not permit the Council to obtain reimbursement for qualified expenditures until the goods and services relating to them are consumed. As a result, the prepaid expenditures are shown as an asset on the balance sheet of the fund financial statements until they are consumed. In addition, a corresponding amount of the fund balance of the General Fund has been reserved to reflect the amount of fund balance not currently available for expenditure.

For purposes of presenting prepaid expenses in the Statement of Activities, the Council will follow the same policy it uses to record prepaid expenditures in the fund financial statements.

### j. Capital Assets

The accounting and reporting treatment used for property, vehicles, and equipment (capital assets) depends on whether the capital assets are reported in the government-wide financial statements or the fund financial statements.

#### **Government-Wide Financial Statements**

Capital assets are long-lived assets purchased or acquired with an original cost of at least \$1,000 and have an estimated useful life of greater than one year. When purchased or acquired, these assets are recorded as capital assets in the government-wide statement of Net Assets. If the asset was purchased, it is recorded in the books at its cost. If the asset was donated, then it is recorded at its estimated fair market value at the date of donation. Capital assets will also include major repairs to equipment and vehicles that significantly extend the asset's useful life. Routine repairs and maintenance are expensed as incurred.

For capital assets recorded in the government-wide financial statements, depreciation is computed and recorded using the straight-line method for the asset's estimated useful life. The Council follows a guideline issued by the State of Louisiana's Office of Statewide Reporting and Accounting to establish the useful lives of the various types of capital assets that are depreciated and the method used to calculate annual depreciation.

Using this guideline, the estimated useful lives of the various classes of depreciable capital assets are as follows:

| Office equipment – other than computers | бyears   |
|---|----------|
| Vehicles                                | 5 years  |
| Computer equipment                      | 5 years  |
| Leasehold improvements                  | 20 years |
| Nutrition equipment                     | 10 years |

When calculating depreciation, the State's guideline assumes that capital assets will not have any salvage value and that a full year's worth of depreciation will be taken in the year the capital assets are placed in service or disposed.

j. Capital Assets - (Continued)

### **Fund Financial Statements**

In the fund financial statements, capital assets used in the Council's operations are accounted for as capital outlay expenditures of the governmental fund that provided the resources to acquire the assets. Depreciation is not computed or recorded on capital assets for purposes of the fund financial statements.

#### k. Non-Current (Long-term) Liabilities

The accounting treatment of non-current liabilities depends on whether they are reported in the government-wide or fund financial statements. In the government-wide financial statements, all non-current liabilities that will be repaid from governmental resources are reported as liabilities in the government-wide statements. In the fund financial statements, non-current liabilities for governmental funds are not reported as liabilities or presented anywhere else in these statements. The Council did not have any non-current liabilities at year-end.

#### **l.** Unpaid Compensated Absences

The Council's annual leave policy requires employees to consume any annual leave they might earn within the Council's fiscal year. In other words, an employee must "use or lose" any earned leave on or before June 30<sup>th</sup> of every year. In contrast, the Council's sick leave policy allows an employee to carryover up to thirty days of sick leave. However, upon termination the employee is not paid for any unused sick leave. As a result, the Council has not accrued a liability for any unused annual or sick leave in the financial statements.

The Council's management has this policy to minimize the Council's exposure to a liability for which the Council may not have the funds to pay.

#### m. Advances from Funding Agency

Advances from funding agency represent unexpended balances of grants awarded to the Council that are required to be returned to the funding agency at the end of the grant period. Grant funds due back to the funding agency are recorded as a liability when the amount due becomes known, normally when a final accounting is submitted to the funding agency.

#### n. Deferred Revenue

The Council reports deferred revenues on both the Statement of Net Assets (government-wide) and the Balance Sheet of the fund financial statements. Deferred revenues arise when the Council receives resources before it has a legal claim to them, as when grant monies are received before the occurrence of qualifying expenditures. In subsequent periods, when the Council has a legal claim to the resources, the liability for deferred revenue is removed from the Statement of Net Assets and the Fund Balance Sheet, whichever the case might be, and the revenue is recognized. The Council did not have any deferred revenue at year end.

#### o. Net Assets in the Government-wide Financial Statements

In the government-wide Statement of Net Assets, the Net Asset amount is classified and displayed in three components:

• Invested in capital assets – This component consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those capital assets. At year-end the Council did not have any borrowings that were related to capital assets.

### o. Net Assets in the Government-wide Financial Statements - (continued)

- Restricted net assets This component consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net assets This component consists of all other net assets that do not meet the definition of "restricted" or "invested in capital assets."

When both restricted and unrestricted resources are available for use, it is the Council's policy is to use restricted resources first to finance its activities.

#### p. Fund Equity – Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance may be further classified as reserved and unreserved, with unreserved further split into designated and undesignated. Reserved means the Council has "reserved" portions of its fund balance that are not available for expenditure because resources have already been expended (but not consumed), or a legal restriction has been placed on certain assets which make them only available to meet future obligations.

Designated fund balances result when the Council's management intends to expend certain resources in a designated manner. Designations of fund balances can be changed at the discretion of the Council's Board of Directors. There were no designated fund balances at year-end.

#### q. Management's Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

#### r. Allocation of Indirect Expenses

The Council reports all direct expenses by function and programs of functions in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function or program. Indirect expenses are recorded as direct costs of the Administration function. The net cost of the Administration function is allocated using a formula based primarily on the relationship the direct cost a program bears to the direct cost of all programs. There are some programs that cannot absorb any indirect expense allocation according to their grant or contract restrictions.

#### s. Elimination and Reclassifications

In the process of aggregating data for the Statement of Net Assets and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

### Note 2 - <u>Revenue Recognition</u>

Revenues are recorded in the government-wide financial statements when they are earned using the accrual basis of accounting.

Revenues are recorded in the fund financial statements using the modified accrual basis of accounting. In applying the susceptible to accrual concept using this basis of accounting, intergovernmental grant revenues, program service fees, and interest income must be both measurable and available. However, the timing and amounts of the receipts of public support and miscellaneous revenues are often difficult to measure; therefore, they are recorded as revenue in the period received.

#### Note 3 - Cash Management and Deposits

The Council maintains a consolidated operating bank account at Bank of Greensburg, which is available for use by all funds to deposit revenues and pay expenses. The purpose of this consolidated account is to reduce administration costs and facilitate cash management. The consolidated account also allows those funds with available cash resources to temporarily cover any negative cash balances in other funds.

The Council maintains a \$200 petty cash fund to pay for small, unexpected expenses that might arise during daily operations.

As described in Louisiana law, the Council is classified as a quasi-public entity. Accordingly, the Council is not required to comply with Louisiana laws relating to the collateralization of bank deposits. However, it is the Council's policy to follow state law in an effort to minimize risks associated with bank deposits that exceed those currently covered by FDIC insurance.

Cash is reported at its carrying value, which equals its fair value. At year-end, the combined carrying amount of the Council's cash on its books, including \$200 of petty cash, was \$92,131, whereas the related bank balances totaled \$92,759. The primary difference in these amounts relates to deposits made to and checks written on demand deposit accounts that have not yet cleared the bank accounts. At year-end, all of the bank balances were insured 100% by federal depository insurance.

|                          |      |        | Fair |        | Interest |          | Credit Risk |
|--------------------------|------|--------|------|--------|----------|----------|-------------|
| Cash & Investments       | Cost |        |      | Value  | Rate     | Maturity | Category    |
| Cash:                    |      |        |      | ····   | <u> </u> |          |             |
| Bank of Greensburg       | \$   | 92,131 | \$   | 92,131 | None     | Demand   | Category 1  |
| Petty Cash               |      | 200    |      | 200    | None     | N/A      | None        |
| Total Cash               |      | 92,331 |      | 92,331 |          |          |             |
| Unrestricted Purpose     | \$   | 83,336 |      |        |          |          |             |
| Restricted Purpose:      |      |        |      |        |          |          |             |
| Utility Assistance       |      | 8,995  |      |        |          |          |             |
| Total Cash & Investments | \$   | 92,331 |      |        |          |          |             |

#### Note 3 - Cash Management and Deposits - (Continued)

As illustrated in the above table, some of the Council's cash and investments are restricted assets for presentation in the Statement of Net Assets. Restricted assets include amounts received or earned by the Council with an explicit understanding between the Council and the resource providers that the resource would be used for a specific purpose. The Council has presented these restricted assets as a component of current assets in the Statement of Net Assets because they are available for use in current operations.

The Council had no asset that would be classified as an investment at year-end.

#### Note 4 - Government Grants and Contracts Receivable

Government grants and contracts receivable represent amounts owed to the Council under a grant award or contract with a provider of federal, state, or local funds; such amounts being measurable and available as of year end.

At year end, the Council had following government grants and contracts receivable from Capital Area Agency on Aging:

| Program            | A  | Amount |  |  |  |
|--------------------|----|--------|--|--|--|
| Title III B        | \$ | 4,306  |  |  |  |
| Title III C-1      |    | 1,049  |  |  |  |
| Title III D        |    | 54     |  |  |  |
| Title III E        |    | 472    |  |  |  |
| Utility Assistance |    | 1,222  |  |  |  |
| Total receivables  | \$ | 7,103  |  |  |  |

#### Note 5 - Prepaid Expenditures and Expenses

At year-end, prepaid expenditures and prepaid expenses consisted of the following:

|                        | P   | repaid    | Prepaid  |        |  |
|------------------------|-----|-----------|----------|--------|--|
|                        | Exp | enditures | Expenses |        |  |
| Insurance premiums     | \$  | 11,041    | \$       | 11,041 |  |
| Other costs            | _   | 801       | _        | 801    |  |
| Total prepaid expenses | \$  | 11,842    | \$       | 11,842 |  |

#### Note 6 - Changes in Capital Assets and Accumulated Depreciation

| Capital Assets<br>Being Depreciated | _  | alance<br>1ne 30,<br>2008 | Ad | ditions | Decre    | ases | alance<br>une 30,<br>2009 |
|-------------------------------------|----|---------------------------|----|---------|----------|------|---------------------------|
| Vehicles                            | \$ | 13,382                    | \$ | 4,990   | \$       | 0    | \$<br>18,372              |
| Office furniture and equipment      |    | 8,732                     |    | 1,000   |          | 0    | <br>9,732                 |
| Total Capital Assets                |    | 22,114                    |    | 5,990   |          | 0    | <br>28,104                |
| Less Accumulated Depreciation:      |    |                           |    |         |          |      |                           |
| Vehicles                            |    | 3,377                     |    | 3,674   |          | 0    | 7,051                     |
| Office furniture and equipment      |    | 3,339                     | ·  | 1,099   |          | 0    | <br>4,438                 |
| Total Accumulated Depreciation      |    | 6,716                     |    | 4,773   | <u> </u> | 0    | <br>11,489                |
| Capital Assets Net of Depreciation  | \$ | 15,398                    | \$ | 1,217   | \$       | 0    | \$<br>16,615              |

A summary of changes in capital assets and accumulated depreciation is as follows:

All the Council's vehicles are operational at year end. The Council's management has reviewed capital assets and does not believe any capital asset has been impaired as of year-end.

Depreciation was charged to governmental activities as follows:

| Administration                 | \$<br>770   |
|--------------------------------|-------------|
| Supportive Services:           |             |
| Transportation of the elderly  | 3,674       |
| Nutrition Services:            |             |
| Congregate meals               | <br>329     |
| Total depreciation expense for |             |
| governmental activities        | \$<br>4,773 |

The \$770 of depreciation associated with the administration function relates to capital assets that essentially serve all functions. Accordingly, it is included as a direct expense of the administration function on the Statement of Activities and then allocated to other functions in accordance with the Council's method of allocating indirect expenses. The other depreciation amounts (\$4,003) are charged as direct expenses to their related functions on the Statement of Activities.

#### Note 7 - Fund Balances - Fund Financial Statements

At year-end, one special revenue fund had remaining fund balance of \$8,995. Usually, the fund balances of the special revenue funds are cleared out at year-end to comply with the administration and accounting policies of the grantor agencies that have awarded the Council certain grants. However, there are exceptions to these policies.

The Council has \$8,995 of utility assistance contributions that remain unspent as of yearend. The donors restrict these contributions for specific purposes. Accordingly, management separately accounts for them in a special revenue fund to ensure accountability. Utility assistance fund balances are common amongst council on aging entities. Utility assistance is a supportive service rendered under the Council's Title III B program. Rather than commingle the accounting of the receipts and disbursements of the utility assistance within the Title III B fund, GOEA prefers that councils on aging use a separate fund that can facilitate the monitoring of the Title III B activity separately from the utility assistance activities.

#### Note 8 - In-Kind Contributions

The Council received a variety of in-kind contributions during the year, but does not record the fair value of them in its government-wide and fund financial statements, except for the donation of capital assets. In the case of a donation of a capital asset, accounting principles for governmental entities require the fair value of a donated capital asset be recorded in the Statement of Activities at the time of acquisition. However, these same principles do not permit the recording of the fair value of capital assets (or other in-kind contributions) in the fund financial statements because of the measurement focus of such statements.

The in-kind contributions that the Council received during the year consisted primarily of free rent and utilities relating to the use of the main administration office in Greensburg and senior centers at Turnel Chapel and Dennis Mills.

#### Note 9- Board of Directors' Compensation

The Board of Directors is a voluntary board; therefore, no compensation has been paid to any member. However, board members can request reimbursement for out-of-pocket expenses in accordance with the Council's travel policy when traveling on behalf of the Council.

#### Note 10 - Income Tax Status

The Council, a non-profit corporation, is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code of 1986, and as an organization that is not a private foundation as defined in Section 509(a) of the Code. The Council is also exempt from Louisiana income tax.

The Council does not file a Form 990 because it has been determined to be an "affiliate of a governmental unit" within the meaning of Section 4 of Revenue Procedure 95-48, 1995-2 C.B. 418.

#### Note 11 - Judgments, Claims, and Similar Contingencies

As of the end of this fiscal year, the Council's management has no knowledge of any pending litigation, lawsuits, or claims against the Council. Furthermore, the Council's management believes that any unexpected lawsuits or claims that might be filed against the Council would be adequately covered by insurance or resolved without any material impact upon the Council's financial statements.

#### Note 12 - <u>Contingencies - Grant Programs</u>

The Council participates in a number of state and federal grant programs, which are governed by various rules and regulations. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Council has not complied with the rules and regulations governing the grants, refunds of any money received and the collectibility of any related receivable at year end may be impaired. In management's opinion, there are no significant contingent liabilities relating to compliance with the rules and regulations governing state and federal grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies. Audits of prior years have not resulted in any disallowed costs or refunds. Any costs that would be disallowed would be recognized in the period agreed upon by the grantor agency and the Council.

#### Note 13 - Economic Dependency

The Council receives the majority of its revenue from other governments in the form of intergovernmental revenues. Intergovernmental type revenues are appropriated each year by the federal, state, and local governments. If significant budget cuts are made at the federal, state and/or local level, the amount of funds the Council receives could be reduced significantly and have an adverse impact on its operations. Management is not aware of any actions that will adversely affect the amount of funds the Council will receive in fiscal year 2010 relating to its usual sources of intergovernmental revenues.

#### Note 14 - Risk Management

The Council is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; and natural disasters. The Council has purchased commercial insurance to cover or reduce the risk of loss that might arise should one of these incidents occur. There have been no significant reductions in coverage from the prior year. No settlements were made during the current or prior three fiscal years that exceeded the Council's insurance coverage.

The Council's management has not purchased commercial insurance or made provision to cover or reduce the risk of loss, as a result of business interruption and certain acts of God.

### Note 15 - Interfund Receivables and Payables - Fund Financial Statements

Because the Council operates its programs under cost reimbursement type grants, it has to pay for costs using its General Fund money and then request reimbursement for the advanced costs under the grant programs. Such advances create short-term interfund loans. A summary of these interfund loans, at year-end, is as follows:

|                                  | Receivable<br>From |       | Payable<br>To |       |
|----------------------------------|--------------------|-------|---------------|-------|
| General Fund:                    |                    |       | _             |       |
| Major Funds:                     |                    |       |               |       |
| Title III B                      | \$                 | 4,306 | \$            | 0     |

## Note 16 - Interfund Transfers - (Continued)

Transfers are used (a) to move revenues from the fund that statute or budget requires to

collect them to the fund that statute or budget requires to expend them, and (b) to shift unrestricted revenues collected in the General Fund and certain Special Revenue Funds to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### Note 17 - <u>Related Party Transactions</u>

There were no related party transactions during the fiscal year.

#### Note 18 - Subsequent Events

Management has evaluated subsequent events through December 16, 2009, which is the date the financial statements were issued. There were no events that required disclosure.

#### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

#### ST. HELENA COUNCIL ON AGING GREENSBURG, LOUISIANA

#### FOR THE YEAR ENDED JUNE 30, 2009

#### NOTE 1 - BUDGETARY REPORTING

The budget information presented in this section of required supplementary information applies to "major" governmental funds for which annual budgets were adopted. Budgetary information for "nonmajor" funds has not been included anywhere in these financial statements.

The Council follows these procedures in establishing the budgetary data that has been presented as required supplementary information in these financial statements.

- The Capital Area Agency on Aging District II Inc., (CAAA) notifies the Council each year as to the funding levels for each program's grant award.
- Revenue projections are also made based on grants from GOEA and other agencies, program service fees, public support (including client contributions), interest income, and other miscellaneous sources.
- Expenditure projections are developed using historical information and changes to the upcoming year that management is aware of at the time of budget preparation.
- Once the information regarding projected revenues and expenditures has been obtained, the Council's executive director and bookkeeper prepare a proposed budget based on the projections. The proposed budget is submitted to the Board of Directors for final approval.
- The Board of Directors reviews and adopts the budget for the next fiscal year at a regularly scheduled board meeting before May 31 of the current fiscal year.
- The adopted budget is forwarded to CAAA for compliance approval for the funds it will pass-through to the Council from GOEA.

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (Continued)

- Unused budget amounts lapse at the end of each fiscal year (June 30). However, if a grant or contract is not completed by June 30, management will automatically budget funds in the next fiscal year to complete the grant or contract. An example where this might occur is when vehicles are acquired under a federal matching program. The "match" might be made in one year and the vehicle delivered in another year.
- The budget is prepared on a modified accrual basis, consistent with the basis of accounting for governmental funds, for comparability of budgeted and actual revenues and expenditures.
- Budgeted amounts included in the accompanying required supplementary information include the original adopted budget amounts and all subsequent amendments. During the fiscal year management did not amend the budget.
- Actual amounts are compared to budgeted amounts periodically during the fiscal year as a management control device.
- The Council may transfer funds between line items as often as required but must obtain compliance approval from the CAAA and the Governor's Office of Elderly Affairs for funds received under grants and contracts from these agencies. As a part of their compliance, CAAA and GOEA require management to amend the budget in cases where actual expenditures for a particular line item exceed their budgeted amount by more than 10%, unless unrestricted funds are available to "cover" the overrun.
- Budgeted expenditures cannot exceed budgeted revenues on an individual fund level, unless a large enough fund balance exists to absorb the budgeted operating deficit.
- The Council is not required by state or local law to prepare a budget for every program or activity it conducts. Accordingly, some activities may not be budgeted, particularly if they are deemed to be immaterial by management.
