Independent Auditors' Report

Board of Directors
Allen Parish Mosquito Abatement District
Oakdale, LA

We have audited the accompanying financial statements of the governmental activities and the major fund of the Allen Parish Mosquito Abatement District (District), a component unit of the Allen Parish Police Jury, as of and for the year ended December 31, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Allen Parish Mosquito Abatement District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the major fund of the Allen Parish Mosquito Abatement District as of December 31, 2010, and the changes of financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued a report dated June 27, 2011, on our consideration of the Allen Parish Mosquito Abatement District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an

Allen Parish Mosquito Abatement District Independent Auditors' Report June 27, 2011 Page 2

opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 5 through 10), budgetary comparison information (page 29), and schedule of compensation paid to board members (page 30) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, are required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consist of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. #### Management's Discussion and Analysis

Within this section of the Allen Parish Mosquito Abatement District's (District) annual financial report, the District's management is pleased to provide this narrative discussion and analysis of the financial activities of the District for the fiscal year ended December 31, 2010. The District's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

#### **Financial Highlights**

- The District's assets exceeded its liabilities by \$1,222,089 (net assets) for the fiscal year reported.
- Total revenues of \$581,448 exceeded total expenses of \$471,158, which resulted in a current year surplus of \$110,290. This is higher than last year, when revenues exceeded expenses by \$90,774.
- Total net assets are comprised of the following:
  - (1) Capital assets, of \$336,780 include property and equipment, net of accumulated depreciation, and
  - (2) Unrestricted net assets of \$895,309.
- The District's governmental funds reported total ending fund balance of \$895,309 this year. This compares to the prior year ending fund balance of \$775,072, reflecting a decrease of \$120,237 during the current year.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$895,309, or 194% of total General Fund expenditures and 154% of total General Fund revenues.
- Overall, the District continues to maintain a strong financial position and is continuing to work to improve on this financial position.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

#### **Overview of the Financial Statements**

This Management's Discussion and Analysis document introduces the District's basic financial statements. The basic financial statements include the financial statements and notes to the basic financial statements. The District also includes in this report additional information to supplement the basic financial statements. Comparative data for the prior year is presented.

Management's Discussion and Analysis (Continued)

#### **Government-wide Financial Statements**

The District's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the District's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Assets*. This is the government-wide statement of position presenting information that includes all of the District's assets and liabilities, with the difference reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other nonfinancial factors such as diversification of the taxpayer base in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the District's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the District's distinct activities or functions on revenues provided.

The government-wide financial statements are presented on pages 13 through 14 of this report.

#### **Fund Financial Statements**

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation.

The District uses governmental funds as follows:

Governmental funds are reported in the fund financial statements and encompass the same function reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental funds, including object classifications. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Management's Discussion and Analysis (Continued)

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic governmental fund financial statements are presented on pages 16 through 19 of this report.

#### Notes to the basic financial statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 20 of this report.

#### Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget presentations. A budgetary comparison schedule and schedule of compensation paid to board members are included as "required supplementary information". This schedule demonstrates compliance with the District's adopted and final revised budget. Required supplementary information can be found on pages 29 through 30 of this report.

#### Financial Analysis of the District as a Whole

The District's net assets at fiscal year-end are \$1,222,089. The following table provides a summary of the District's net assets:

	<u>2009</u>	<u>2010</u>
Assets: Current assets Capital assets	\$ 776,057 <u>336,727</u>	\$ 895,684 <u>326,780</u>
Total assets	1,112,784	<u>1,222,464</u>
Liabilities: Current liabilities	985	<u>375</u> 375
Total liabilities	<u>985</u>	3/5
Net assets: Invested in capital assets, net Unrestricted	336,727 775,072	326,780 <u>895,309</u>
Total net assets	\$ <u>1,111,799</u>	\$ <u>1,222,089</u>

#### Management's Discussion and Analysis (Continued)

The District continues to maintain a high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio is 2,388.49 to 1.

Note that approximately 27% of the governmental activities' net assets are tied up in capital assets. The District uses these capital assets to provide services to its citizens.

Overall, the District's office reports net assets of \$1,222,084. This amount is \$110,290 higher than last year. The District's overall financial position improved during fiscal year 2010.

The following table provides a summary of the District's changes in net assets:

	<u>2009</u>	<u>2010</u>
Program revenues	\$ 148,212	\$ -
General revenues	587,094	581,448
Total Revenues	735,306	581,448
Mosquito abatement Interest Total Expenses	641,216 3,316 644,532	471,158 
Change in Net Assets	90,774	110,290
Beginning Net Assets	<u>1,021,025</u>	<u>1,111,799</u>
Ending Net Assets	\$ <u>1,111,799</u>	\$ <u>1,222,089</u>

#### **Governmental Revenues**

The District is heavily reliant on ad valorem taxes. These taxes provided 96% of the District's revenues during the current year.

#### **Governmental Functional Expenses**

The total function of the District is to abate, control, eradicate, and study mosquitoes and other arthropods of public health importance and all activities incidental thereto for the people of Allen Parish. Of the total cost, depreciation on the capital assets was \$9,947 or 2% of total expenses.

Management's Discussion and Analysis (Continued)

Financial Analysis of the District's Funds

Governmental Funds

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported an unreserved and undesignated ending fund balance of \$895,309.

The unreserved, undesignated fund balance increased by \$120,237 from the previous year.

Major Governmental Funds

The General Fund is the District's only operating fund and is the single source of day-to-day service delivery. The General Fund's fund balance increased by \$120,237.

#### **Budgetary Highlights**

The General Fund — When the budget was adopted, it was anticipated that the total revenues were going to be 26% less than the previous fiscal year primarily due to and expected decrease in FEMA intergovernmental funding. The budget also anticipated that total expenditures were going to be 42% less than the previous fiscal year primarily due to the fact that the above mentioned FEMA funding was only available for spraying after a recent hurricane. The District experienced no hurricanes in 2010 and did not plan to pay its primary vendor for additional spraying in 2010. The budget was not amended during the year. Variances were positive overall.

Management's Discussion and Analysis (Continued)

#### **Capital Assets and Debt Administration**

#### Capital assets

The District's investment in capital assets, net of accumulated depreciation as of December 31, 2010, was \$326,780. See Note C for additional information about changes in capital assets during the fiscal year and the balance at the end of the year. The following table provides a summary of capital asset activity.

	2009	2010
Depreciable capital assets: Equipment Furniture & fixtures Buildings	\$ 740 2,759 <u>377,896</u>	\$ 740 2,759 <u>377,896</u>
Total depreciable assets	381,395	381,395
Less accumulated depreciation	<u>44,668</u>	<u>54,615</u>
Book value-depreciable assets	\$ <u>336,727</u>	\$ <u>326,780</u>
Percentage depreciated	<u>12</u> %	<u>. 14</u> %
Book value-all assets	\$ <u>336,727</u>	\$ <u>326,780</u>

At December 31, 2010, the depreciable capital assets for governmental activities were 14% depreciated.

There were no additions or retirements to capital assets during the current year.

#### **Contacting the District's Financial Management**

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations, and demonstrate the District's commitment to public accountability. If you have any questions about this report or would like to request additional information, contact the District President, Mr. Bryan Tilley, at (337) 639-4054.

# Notes to Basic Financial Statements December 31, 2010

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Allen Parish Mosquito Abatement District was created by the Allen Parish Police Jury on June 17, 2002 as a political subdivision of the State of Louisiana under the provisions of Louisiana Revised Statutes 33:7721 et seq., for the purpose of abatement, control, eradication, and study of mosquitoes and other arthropods of public health importance and all activities incidental thereto for the people of Allen Parish. The District is governed by a board of five directors who are appointed by the Allen Parish Police Jury and are not compensated. The District encompasses all of Allen Parish and has approximately 25,000 citizens. As of December 31, 2010, the District has no employees. The District contracts with a private company to provide for mosquito control services.

The accounting and reporting policies of the Alien Parish Mosquito Abatement District conform to generally accepted accounting principles as applied to governments. Such accounting and reporting procedures conform to the requirements of the industry audit guide, <u>Audits of State and Local Governments</u>. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions on or before November 30, 1989 have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

#### 1. Reporting Entity

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with Governmental Accounting Standards Board (GASB) Statement No. 14, Allen Parish Mosquito Abatement District includes all funds that are within the oversight responsibility of the Allen Parish Mosquito Abatement District.

As the governing authority, for reporting purposes, the Allen Parish Police Jury is the financial reporting entity. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

SB Statement No. 14 established criteria for determining which component units should be considered part of the Allen Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability.

# Notes to Basic Financial Statements December 31, 2010

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

- 1. Appointing a voting majority of an organization's governing body, and
  - a. The ability of the Allen Parish Police Jury to impose its will on that organization, and/or
  - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Allen Parish Police Jury.
- 2. Organizations for which the Allen Parish Police Jury does not appoint a voting majority but are fiscally dependent on the Allen Parish Police Jury.
- 3. Organizations for which the reporting entity financial statements could be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based upon the application of these criteria, Allen Parish Mosquito Abatement District is a component unit of the Allen Parish Police Jury's reporting entity.

#### 2. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments", issued in June 1999.

#### **Government-Wide Financial Statements**

The statement of net assets and the statement of activities display information about the District as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues.

The statement of activities presents a comparison between direct expenses and program revenues for each of the functions of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

# Notes to Basic Financial Statements December 31, 2010

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Program revenues include (a) fees and charges paid by the recipients of services offered by the District; and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, interest, and rents, are presented as general revenues.

#### **Fund Financial Statements**

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Allen Parish Mosquito Abatement District or if its total assets, liabilities, revenues, or expenditures are at least 10% of the corresponding total for all governmental funds. The District has one fund, the General Fund, which is therefore considered its major fund.

#### 3. Measurement Focus/Basis of Accounting

The amounts reflected in the governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of Allen Parish Mosquito Abatement District operations. Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The amounts reflected in the governmental funds use the modified accrual basis of accounting where revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Allen Parish Mosquito Abatement District considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for the interest and principal payments on long-term debt which are recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

# Notes to Basic Financial Statements December 31, 2010

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### Revenues

Those revenues susceptible to accrual are ad valorem taxes.

#### **Expenditures**

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Capital expenditures are regarded as expenditures at the time purchased.

#### 4. Cash

Cash includes amounts in demand deposits and time deposits with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At December 31, 2010, the District has \$326,792 in deposits (collected bank balances). These deposits are secured from risk by federal deposit insurance and pledged securities.

#### 5. Budgets

A budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America. On or before the last meeting of each year, the budget is prepared by function and activity, and includes information on the past year and current year estimates.

The proposed budget is presented to the government's Board of Directors for review. The board holds a public hearing and may add to, subtract from, or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated.

# Notes to Basic Financial Statements December 31, 2010

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### 6. Capital Assets

Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair value at the date of donation. Allen Parish Mosquito Abatement District maintains a threshold level of \$500 or more for capitalizing capital assets.

Capital assets are recorded in the statement of net assets. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets are depreciated using the straight-line method over the following useful lives:

Asset Class	Estimated <u>Useful Lives</u>
Equipment	7 Years
Furniture & fixtures	7 Years
Buildings	40 Years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

#### 7. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of moneys are recorded in order to reserve that portion of the applicable appropriation, is not employed by Allen Parish Mosquito Abatement District as an extension of formal budgetary integration in the funds.

#### 8. Equity Classification

In the government-wide statements, equity is classified as net assets and displayed in three components:

a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

# Notes to Basic Financial Statements December 31, 2010

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

- b. Restricted net assets Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

In the fund statements, governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

#### 9. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### 10. Long-Term Debts

All long-term debts to be repaid from governmental resources are reported as liabilities in the government-wide statements.

Long-term debts for governmental funds are not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures.

#### NOTE B - AD VALOREM TAXES

For the year ended December 31, 2010, taxes were levied on taxable assessed valuations of \$73,169,820 at a millage of 8.03.

Property tax millage rates are adopted in July for the calendar year in which the taxes are levied and recorded. All taxes are due and collectible when the assessment rolls are filed on or before November 15<sup>th</sup> of the current year, and become delinquent after December 31<sup>st</sup>. Property taxes not paid by the end of February are subject to lien.

Total taxes levied were \$587,554.

# **NOTE C - CAPITAL ASSETS**

### A summary of changes in capital assets follows:

Governmental activities:	12/31/09 <u>Balance</u>	<u>Additions</u>	Retirements	12/31/10 <u>Balance</u>
Depreciable capital assets:	¢ 740	œ.	\$ -	\$ 740
Equipment	\$ 740 2.750	\$ -	Ф -	
Furniture & fixtures	2,759	-	-	2,759
Building	<u>377,896</u>		<u>-</u> _	<u>377,896</u>
Total	<u>381,395</u>			<u>381,395</u>
Less: Accumulated Depreciation				
Equipment	477	106	_	583
Furniture & fixtures	1,679	394	-	2,073
Buildings	42,512	9,447	· <u>-</u>	51,959
Total	44,668	9,947	·	54,615
Net capital assets	\$ <u>336,727</u>	\$ <u>(9,947</u> )	\$ <u>=</u>	\$ <u>326,780</u>

Depreciation expense in the amount of \$9,947 was charged to mosquito abatement.

#### Notes to Basic Financial Statements December 31, 2010

#### NOTE D - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

#### NOTE E - COMMITMENTS

The District has one major outstanding contract for professional and contract services with Vector Disease Control, Inc. The company will provide control of the mosquito population in Allen Parish. The original contract agreement was for a period beginning April 28, 2003 and ending December 31, 2007. On December 17, 2007, the contract was extended for the four years from January 1, 2009 through December 31, 2011. Payments totaling \$450,000 per year are required under the contract extension.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH

GOVERNMENT AUDITING STANDARDS

June 27, 2011

Board of Directors
Allen Parish Mosquito Abatement District
Oakdale, Louisiana

We have audited the basic financial statements of the governmental activities and the major fund of Allen Parish Mosquito Abatement District, a component unit of the Allen Parish Police Jury, as of and for the year ended December 31, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents, and have issued our report thereon dated June 27, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Allen Parish Mosquito Abatement District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Allen Parish Mosquito Abatement District's internal control over financial reporting. Accordingly, we do not express an opinion over the effectiveness of the Allen Parish Mosquito Abatement District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Board of Directors Allen Parish Mosquito Abatement District June 27, 2011 Page 2

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified one deficiency in internal control over financial reporting described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency in internal control over financial reporting as finding 2010-1. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**Compliance and Other Matters** 

As part of obtaining reasonable assurance about whether Allen Parish Mosquito Abatement District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information of management and use of the Legislative Auditor of the State of Louisiana and is not intended to be and should not be used by anyone other than these specified parties. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Noncompli statements	ance material to financial noted?	yes	_X_ no
Findings - Finan	cial Statement Audit	,	
Finding #2010-1 I/ Significant deficier			

Inadequate Segregation of Duties

Because of the lack of a large staff, more specifically accounting personnel, there is insufficient segregation of duties necessary for proper controls. We do note that this situation is inherent in most entities of this type and is difficult to resolve due to the funding limitations of the District. We recommend that the board take an active interest in the review of all of the financial information. This was also a prior year finding.
