Louisiana Revised Statute (R.S.) 24:513.2(E) requires the legislative auditor to submit annually to the legislature a report including summary financial and personnel information on all boards, commissions, and like entities created by law or executive order and to report findings and recommendations resulting from any analysis of the information. Based on our analysis, we submit the following information and recommendations:

- As of December 2011, we identified 492 boards, commissions, and like entities created by law or executive order.
- Of the 436 active entities that responded to our request, 289 pay per diem, salaries, and/or travel of the board members. The current year budgets and prior year amounts totaled \$1,067,483 and \$1,457,141 for per diem payments; \$1,525,790 and \$2,692,279 for board member salaries; and \$2,115,584 and \$2,302,807 for board member travel, respectively.
- Nine boards, commissions, and like entities that were created during 2009 or earlier have never been fully organized, have disbanded, or are currently inactive. The legislature or governor as deemed appropriate should consider abolishing these entities.
- Forty-seven boards, commissions, and like entities did not provide the requested information. Louisiana law requires these entities to provide requested information.

# BOARDS, COMMISSIONS, & LIKE ENTITIES REPORT

## Legislative Mandate

R.S. 24:513.2(E) requires the legislative auditor to submit annually to the legislature a report containing summary financial information and personnel data on (1) boards, commissions, and like entities created by law or executive order that are made part of, or are placed in, the executive branch of state government and (2) local boards, commissions, and like entities that are specifically created by law. The statute provides for the legislative auditor to report findings and recommendations resulting from any analysis performed of the information.

R.S. 49:1301 requires the commissioner of administration to establish and maintain a Web site containing information on boards, commissions, and like entities and R.S. 49:1307 requires the legislative auditor to work with the commissioner of administration to ensure that each board, commission, or like entity complies with submitting information to the Web site.

## Web Site

Through a cooperative endeavor agreement, the legislative auditor and the commissioner of administration established a Web site at <http://www.prd.doa.louisiana.gov/boardsandcommissions/home.cfm>. The information provided in this report was collected from the Web site as of this report's issue date. Information for a specific board, commission, or like entity can be viewed by visiting the Web site and searching for the specific board, commission, or like entity of interest. A list of the 492 boards, commissions, and like entities identified at the time of this report begins on page 9.

## Trend

This report identifies 492 boards, commissions, and like entities, as of December 2011. Our current and previous reports include the following number of entities:

<b>Growth of Entities</b>	
<u>Year</u>	<u>Number of Entities</u>
1992	338
1993	360
1994	441
1995	454
1996	456
1997	418
1998	428
1999	458
2000	481
2001	480
2002	479
2003	487
2004	513
2005	485
2006	463
2007	474
2008	484
2009	491
2010	495
2011	492

Overall, these comparisons reflect an increase in the growth of boards, commissions, and like entities. The 1997 and 2005 decreases in the number of such entities are primarily attributable to the termination, in accordance with R.S. 49:215(C), of entities that were created by executive order. Since our last report, 30 entities were created and 33 entities were either repealed by law or terminated in accordance with law or executive order.

The recommendations included in this report are intended to control the growth of boards, commissions, and like entities.

### Information Requested

R.S. 24:513.2(F) directs all agencies, boards, commissions, and departments of the state and its political subdivisions to furnish information and reports as requested by the legislative auditor to fulfill his responsibilities. All boards, commissions, and like entities were requested to provide contact information, membership information, and statutory or legal authority relative to the entity.

R.S. 39:1335 and 1336 require licensing agencies to provide summary and detailed information pertaining to actual and budgeted revenues by source, expenditures by category, and fund balances; the number of classified and unclassified personnel; performance indicators; and certain general information pertaining to the board and its authority and functions.

All other boards, commissions, and like entities were requested to provide similar information, except that the financial and budget information was requested in summary form only and information pertaining to performance indicators was not requested.

### Incomplete or No Response Received

In some instances, the submitted information was incomplete. Some boards, commissions, and like entities did not respond to our request for information. A list of those boards, commissions, and like entities that did not respond to our request begins on page 6.

### Information Unaudited

Information included in this report and on the Web site was provided by the boards, commissions, and like entities; it has not been audited by the legislative auditor, and, accordingly, we express no opinion on the information. We did correct obvious errors in the submitted information.

### Inactive Entities

The following nine boards, commissions, and like entities revealed that the entities were never fully organized; were disbanded with no plans to reorganize; are inactive; or have no funding prospects to undertake the functions for which they were established, even though the board members may continue to meet.

Because these entities are not fulfilling their established functions, the legislature or governor as deemed appropriate should consider their abolishment.
